Granite Plaque Marks Sesqui Time Capsule

Salem's historical sesquicentennial time capsule, which was buried on the Public Library lawn and to be opened in the year 2006, was permanently identified yesterday when an inscribed granite marker was placed over top of the vault. Librarian James Hafer (left) looks on as S. P. Miller of Logue Monument Co. cements the plaque in place. It reads, "Time Capsule, Salem Sesquicentennial, June 15, 1956. To Be Opened—2006." Much of the city's historical lore was buried in the time capsule during Salem's 150th anniversary last June.

30 Lisbon Teachers Plan To Resign

Action Is Result Of Defeat Of Levy For Salary Boosts

LISBON — Miss Della Wetzel, principal of McKinley School, told the Board of Education at its meeting Tuesday night that approximately 30 of the 52 teachers in the system plan to resign at the end of the current teaching year as a result of the defeat of the 8-mill school levy at the Nov. 6 election.

Passage of the levy would have provided for salary boosts for the

teachers and other operating expenses.

Miss Wetzel, one of 45 teachers who attended the meeting, said the 30 teachers either will quit the profession entirely or teach in other systems.

It is reported several teachers already have applied for jobs in other towns.

Miss Wetzel suggested the board give the teachers a new salary schedule and, after available funds are depleted, close down the schools.

Two other teachers, Mrs. Mary Pettit and Mrs. P. V. Perry, also spoke on the matter.

William Ashton, president of the

board of education, assured the teachers the board would take some action on the matter.

Board members held a lengthy discussion on what financial course to follow as a result of the defeat of the levy. It was decided to request Robert Rohe, director of the division of finance of the State Department of Education at Columbus, to come to Lisbon and study the situation here. The board will meet with Rohe afterward to get his recommendations.

Wilfred Patterson, a general handyman, will again be hired by the local board on a call basis. He suffered a heart attack and was un-

der doctor's care but may now do light work.

The board passed a resolution setting up the following schedule for certificated employees:

All teachers are to be appointed for a nine-month school year, with the following exceptions: superintendent, 12 months; high school principal, 12 months; Lincoln School principal, 10 months; McKinley School principal, 10 months; all coaches, 9½ months; vocational agriculture teacher, 12 months; High School librarian, child accounting and band director 10 months.

Because Lisbon's Bus No. 1 was

overloaded by five pupils, the board approved a contract with United Local School to transport the five pupils at a cost of \$3.50 a month per pupil.

Board members voted to have the electricity turned off at the stadium after the football season, thereby saving on the electric bill.

The board authorized the purchase of a new 20-foot freezer for the Lincoln School cafeteria at a cost of \$278.94 from the Dorrance Furniture Store. The 14-foot freezer now being used at Lincoln School will be moved to McKinley School.

Segregation On Buses Banned

Southerners Blast Court's Decision

MONTGOMERY, Ala. (AP)—"We were badly treated on the buses but now they've given us justice."

That was the reaction of a 78-year-old Montgomery Negro woman to the U. S. Supreme Court's decision Tuesday that bus segregation is unconstitutional. The woman, Mrs. Susie McDonald, and three other Negro women brought the suit that broke city and state bus segregation laws.

White officials across the South took a strong stand directly opposed to hers.

Charges of unlawful interference with the states, common since the 1954 Supreme Court ban on public school segregation, echoed again across Dixie.

Leaders of the 11-month-old bus boycott in Montgomery indicated the decision would bring the protest to an end, its purpose now removed.

Praises Decision

Calling the decision "a glorious daybreak," the Rev. Martin Luther King Jr. said "everyone was very happy" at a meeting of boycott leaders Tuesday night.

The governors of Mississippi and Georgia, U. S. and state senators, a state attorney general and other officials were among those sharply criticizing the decision.

The Montgomery City Commission, named in the suit, had no immediate comment. Alabama's Atty. Gen. John Patterson, who had filed an appeal to the Supreme Court of a special three-judge federal panel, was not available for comment.

President Jack Owen of the Alabama Public Service Commission said that "to keep down violence and bloodshed, segregation must be maintained."

Klan Members Ride

A caravan of about 40 carloads of robed Ku Klux Klan members toured Negro residential areas of Montgomery Tuesday night, horns blowing, but police said they had no reports of violence.

Gov. J. P. Coleman of Mississippi said that his state's segregation laws "are not involved" in the decision and would still be enforced.

The senior judge on the special panel, Richard T. Rives of the 5th U. S. Circuit in New Orleans, said the Supreme Court's upholding of the panel would set a precedent for other cases.

Alabama's senior senator, Lister Hill, said "every lawful means to set aside the ruling" should be used.

Herman Talmadge, senator-elect of Georgia, called again for congressional limitation of the Supreme Court's power.

Georgia's Gov. Marvin Griffin said his state would oppose application of the decision by all legal means.

Ohio Can Lead U.S. In Industry, C. Of C. Told

TOLEDO, Ohio (AP)—The head of a research institute said today Ohio can lead the nation in manufacturing within 10 years, providing business and industrial leaders accept the challenge and work together to meet it.

Ohio's geographical location and its transportation facilities lead

Hungary Keeps Up Resistance

Tito May Intervene To Solve Stalemate

BUDAPEST (AP)—Passive resistance against Russia's puppet Hungarian government continued today throughout the battered nation. Speculation grew that Yugoslavia's President Tito may have to intervene to solve the stalemate.

Much of the revolution-wrecked country remained idle in the throes of a virtual general strike. Factories were crippled, workers stayed away from their jobs, transportation was broken down, food was desperately short, and Russian tanks remained on the streets.

Opposition Spreads

Opposition to the Soviet-installed government of Premier Janos Kadar spread even to the regime's own newspaper, Szabad Nep.

Journalists and printers at the paper's printing shop joined the nationwide strike and refused to put out today's issue. The newspaper had been the only one printed in Budapest since Russian tanks rolled into the capital Nov. 4 and put the Kadar government in power.

Many middle-of-the-road Hungarian politicians looked to Tito as the only man who might solve the dilemma in which the Kadar government has been rendered impotent by the passive resistance of the rebellious Hungarians and even of dihard Communists.

Nagy Given Refuge

The Yugoslav ambassador to Budapest went to Belgrade Tuesday, while the former Hungarian Communist Premier brought to power briefly by the revolt, Imre Nagy, remained in refuge here in the Yugoslav Embassy.

Hungarian journalists, mainly Communist party members, adopted a resolution: fully supporting the government Nagy formed Nov. 2 and which the Russians forced out two days later.

the factors that make this possible, said Dr. Clyde E. Williams, president of the Battelle Memorial Institute of Columbus.

Dr. Williams made his prediction in a speech prepared for delivery at a luncheon of the Ohio Chamber of Commerce, holding its 63rd annual meeting here.

Right now, Ohio is second to New York as a manufacturing state.

To take over first place, Dr. Williams said, business and industrial leaders must develop a master plan, "a blueprint for Ohio's progress," and then pursue it vigorously.

He said the plan would require a study which would "bring the pertinent facts together, delineate the interrelationships that exist and determine how our resources fit in with the ever-changing industrial, social, political and economic complex."

Seaway's Effect Cited

We need to know, he said, how Ohio's resources "are related to possible changes in water, rail and air transport; how the St. Lawrence Seaway will affect them as selling points for Ohio; what the highway construction program will mean to them; how population growth and dispersment will affect them; what their significance might be under radically different methods for production or under radically changed economic situations."

Also facing the planners, he said, will be a number of other questions such as:

"How will industrial decentralization, increased industrialization and the suburbanization movement affect the favorable business climate in Ohio? What will population growth... mean to the state's structures? How will the decline of small agricultural units affect constituency and outlook of the Ohio General Assembly and thus the legislative attitude toward business?"

In explaining his belief that Ohio can become the No. 1 manufacturing state, Dr. Williams pointed first to what he said was the national growth in business and industry.

He said that since Ohio now produces about 9 per cent of America's manufactured goods, it would be reasonable to assume it would get at least that percentage of the new business in the nation in the next 10 years.

Business To Increase

"And because of its many advantages, we may expect Ohio business to increase even more than" the 52 per cent increase anticipated nationally, he said.

Discussing the state's attributes, he told the chamber that "I would say that Ohio's geographical location was its most potent asset industrially. This, coupled with the state's unexcelled transportation facilities by rail, water, air and truck, gives it advantages hard to equal."

Ohio's other attractions for industry, he said, include its land and capital resources; its mineral resources including cheap coal, available for production of steel and low cost electricity; the state's growing steel industry itself; the opening of the St. Lawrence Seaway; the quality of its people and its social and legislative attitudes toward business and industry.

He said that "unquestionably, Ohio's fair tax laws and its executive, legislative and judicial at-

U. N. Police Unit Still Waiting

New Problems Delay Move Into Egypt

Capodichino Staging Area, Italy (AP)—The takeoff of U. N. police force units for Egypt was postponed another 24 hours today, but political and supply problems indicated the delay might be even longer.

As new arrivals swelled the growing force to more than 300 men, a Swiss air spokesman announced, "The earliest possibility for taking off for Cairo is 8 a.m. Thursday 1 a.m. (CST)."

Supply and housing problems and disagreement between Egypt and Britain, France and Israel on the force's mission were seen as the reasons for the postponements. U. N. officials at the staging area appeared to be waiting for the completion of landing arrangements between the Egyptians and U. N. headquarters in New York.

Observers In Suez

While the U. N. troops stood by in Italy, a team of 12 U. N. truce observers from Palestine landed at Port Said and drove immediately to the front lines at El Cap. south of the port. They sped past the forward British and Egyptian positions and headed for Ismailia to talk with Egyptian officials on the movement of the police force into the area.

Until the arrival of the bulk of the U. N. force, the chief mission of the 12 observers will be to help keep the cease-fire along the 600-yard-wide no man's land in the canal zone.

U. N. Secretary General Dag Hammarskjold had been scheduled to arrive in Rome today to confer with Canadian Maj. E. L. M. Burns, commander of the new force, and to inspect the assembling U. N. troops before going on to Cairo to meet with the Egyptians. The secretary general postponed his departure from New York until this afternoon, ostensibly to work on arrangements of relief to revolt-troops Hungary.

Area Orchardists Hear Talk On Proposed Plan

Ohio Fruit Growers Assn. May Be Formed

Fruit growers from Columbiana and Mahoning counties met with George Downes of Magnolia and Vernon Patterson, of the Ohio State Horticultural Society Tuesday night in Fairfield School to discuss a proposed plan and operational procedure for an Ohio Fruit Growers Association.

Twenty-three growers attended. No definite action was taken on the matter.

Downes, chairman of a committee appointed by the executive committee of the state horticultural society to study fruit marketing in Ohio, has been conducting meetings in this area with local growers on the problem of marketing their fruit, particularly apples.

Patterson told the fruit growers last night that the purpose of the new association would be to secure and organize supplies of Ohio fruits for wholesale and retail outlets in or near Ohio.

He said the association would be organized as a cooperative under Ohio Cooperative Law, and its policies would be governed by a board of directors.

At the outset the organization would be assisted by the sales force of the Ohio Potato Growers Organization, he said.

Patterson cited the following proposed general operating procedures:

A. Brand names will be selected for each grade or combination of grades that the board of directors of the fruit growers association and the sales organization decide will be required. The brands will be patented, and must be kept at a minimum, at least in the beginning.

B. All fruit packed under association brands must be packed under federal-state inspection, using standard U. S. grades.

C. Lots failing to make grade must not be shipped. These lots must be re-graded and re-inspected before sale. The cost of inspection will be paid by the individual packer or grower. Inspection certificate must accompany each load of fruit delivered to buyers.

D. Prices will be determined by the general manager of the fruit growers association in conference with the sales office. Price quotations will be sent to members weekly, or oftener if situation demands.

E. Grower may sell outside sales office in containers carrying association brands, if inspected and if in conformance to price.

F. Each grower may do his own grading and packing, or growers may cooperate in presently organized central packing plants, or organize same.

G. Each member desiring to use the association will keep the association manager informed of his supply on hand by varieties, as requested by the manager.

H. Each container must be imprinted with grower's name or number.

I. Capital donations should give the association a start. A minimum of \$5,000 is considered necessary. Annual dues of \$25 for each member will be required.

J. Containers bearing brand names will be purchased by the association for members at a reduced rate resulting from large quantity discount. These containers will be re-sold to members at mark-up of six cents per bushel capacity of container over cost. Mark-up will be shared equally between the Ohio Potato Growers Association and the fruit growers.

50,000 Reds Seen Ready To Intervene

WASHINGTON (AP)—President Eisenhower said today the United States would oppose — probably through the United Nations — any intervention in Egypt by Soviet or Chinese Communist volunteers.

The President left up in the air just what form such opposition might take.

He told a news conference, his first since re-election, that the nature of such opposition would depend upon the specific circumstances of any intervention.

50,000 Volunteers Ready

There have been reports that up to 50,000 Soviet volunteers were

East Liverpool Patrolman Is Indicted

The recalled September grand jury Tuesday returned a secret indictment against Jerry Raimond, former East Liverpool special patrolman, on a charge of receiving and concealing stolen property, an East Liverpool City Hall source reported today. Two other indictments also were returned by the grand jury.

Raimond was found not guilty of the burglary of the Berman Lumber Co. in East Liverpool in 1954 during the "police scandal" trials in June.

Following the acquittal of Raimond and Ira Cunningham, East Liverpool police officer on that charge, MacDonald requested and was granted a delay in the burglary trials.

The state's case against the police had been weakened by the reversal of testimony of Dallas Bishop, former special policeman, who had pleaded guilty to the Berman

Final Returns Show Blake Won By 826

Official returns from the four counties in the 22nd state senatorial district were certified today to Secretary of State Ted W. Brown at Columbus by the Columbiana County Election Board, confirming an 826-vote victory for Arthur Blake of Martins Ferry, the Democratic incumbent, over Paul V. Baxter of East Liverpool.

Completed after Jefferson County certified its final tabulation, the total in the district shows 60,409 for Blake and 59,583 for Baxter. Unofficial figures showed Baxter was the victor by a 49-vote margin, but discovery of an adding machine error when Columbiana County's official count was made last Thursday night gave the Belmont County man a net lead of 748.

He gained 78 more votes when the official figures were reported here by the three down-river counties.

The county board also certified to Columbus figures showing an official 25,329-vote victory for Rep. Wayne L. Hays of Belmont County in his bid for a fifth term in Congress against Joseph Miller of Steubenville, the Republican nominee. The official count gives Hays 78,956 to 53,627 for Miller.

Total vote in the four counties of the senatorial district was 135,733. The total vote in the congressional district is comprised of Columbiana, Jefferson, Belmont, Harrison and Carroll counties. The senatorial district includes all the same counties except Carroll.

Certification of the returns to Columbus officially opens the way for a recount application in the senatorial race, although Baxter had not indicated he expects to seek a new tabulation. Under state law, he has until five days after the certification to ask the recount, which would make the deadline Monday. Law requires the recount to start within 10 days after the application is filed, which means it would get under way not later than Nov. 29.

In seeking a recount, the applicant must post a \$10-a-precinct bond, so more than \$4,000 would have to be put up to cover the more than 400 precincts in the senatorial district.

Police Probe Reports Of Vandalism, Prowlers

Lee Burton of 972 W. 6th St. reported to police Wednesday morning that prowlers had frightened a babysitter at the Burton home on Tuesday night by throwing gravel against the front door.

Burton also said someone deflated the tires of his car sometime Tuesday night while it was parked in the Salem News lot.

Two other cases of vandalism were reported to police. Rhinehart Noll of 290 W. Pershing St. said someone threw a stone through a window at 292 W. Pershing St. sometime Tuesday night.

Carl E. Hunter of Warren reported a window of his car was smashed sometime Tuesday while it was parked on S. Broadway.

Hammarskjold Asks To Lead U. N. Relief Team To Hungary

UNITED NATIONS, N. Y. (AP)—U. N. Secretary General Dag Hammarskjold awaited word from Communist Hungarian authorities today whether he will be permitted to lead a U. N. relief mission into the revolt-troops satellite.

Hammarskjold confirmed Tuesday night that he had approached Hungarian Foreign Minister Imre Horvath on the question.

Hungary's Moscow-installed regime had rejected an Assembly proposal to send a team of observers to check on compliance with the Assembly's demand for withdrawal of Soviet forces and the holding of free elections. The Budapest government later agreed to let in relief supplies with U. N. representatives supervising the program on the spot.

Hammarskjold delayed his departure for the Middle East to work on arrangements for the relief to Hungary. A spokesman said he would leave this afternoon.

The General Assembly overrode Soviet objections 62-9 Tuesday night and agreed to debate the Hungarian question. The delegates also voted to take up the issue directly without first clearing it through the Political Committee.

U. S. Deputy Delegate James J. Wadsworth said the United States believed the Assembly had not only the right but the duty to handle the Hungarian issue.

Soviet Deputy Foreign Minister Vassily Kuznetsov and Horvath repeated the Communist assertion that Hungary's situation was strictly an internal affair and none of the U. N.'s business.

Various nations pushed relief donations for the Hungarians. U. S. Chief Delegate Henry Cabot Lodge Jr. presented a check for a million dollars to Hammarskjold.

Says Mass Education Won't Be Handicap

WASHINGTON (AP) — A Pennsylvania educator said today that huge enrollments foreseen for the nation's colleges may not prove to be such a handicap to the student after all.

Already, said Dean Harold K. Schilling of Pennsylvania State University, mass education "has set in with a vengeance" at the graduate school level of some universities.

"But I doubt very much that the quality of graduate work at these mass-producing institutions has suffered one bit," he said. "The young Ph.D. today is at least as able and as well prepared as his predecessor of 25 or 50 years ago."

Mountain Of Relief Ready For Hungry

LONDON (AP) — A veteran welfare worker looked at the small mountain of Hungarian relief supplies blocking the Red Cross office in London and shook her head in wonder.

"It has been a long time since England saw anything like this," she said.

Throughout Western Europe, welfare workers are telling the same story. The free world, they say, is sending the shirt off its back and the ring off its finger to help Hungarian refugees and other victims of last week's Russian repression.

More than 10 million dollars in money has been given or pledged in voluntary contributions, and the amount is rising by the hour.

Thousands of tons of medicine, food, clothing and other supplies have already been sent to Budapest or points along the Hungarian border. A vast backlog of additional supplies is clogging relief depots throughout West Europe.

Farm Price Support Program Cost All Americans \$5.91

WASHINGTON (AP) — Suppose that each adult and child in America contributed \$5.91 to a special fund.

The total, an agriculture department spokesman said today, would come to about 975 million dollars — the amount it cost to run the farm price support system in the year ended June 30.

Those figures were supplied at the request of a reporter who asked what expenses are entailed in the government's job of stabilizing farm prices.

"Actually," said the spokesman, "over the years the average cost of the farm price support program has been much less than 975 million."

"In fact, over the entire 23-year period that the Commodity Credit Corporation has been supporting farm prices, the net cost has been \$3,624,000,000."

"That averages to 158 million dollars a year."

This money has been spent to assure what the government considers a fair price to farmers on crops and products in which surpluses have developed.

Both Democratic and Republican administrations have acted on the assumption that prices on surplus items — such as wheat and corn — would sometimes drop to unreasonably low levels if left to the law of supply and demand.

Requires Firm To Compete Overseas

WASHINGTON (AP) — The Supreme Court has decided that a company found to have violated the Sherman Antitrust Act may be required to compete in foreign territories allocated to firms abroad.

The Holophane Co., Inc., manufacturer of prismatic glassware and with a factory in Newark, Ohio, protested against such a requirement to the high court. The company's appeal said the Justice Department was seeking to extend applicability of antitrust laws beyond national boundaries.

The company was found to have violated antitrust laws by a cartel arrangement.

The Supreme Court action was announced in a brief order which gave no explanation.

The Holophane Co. was incorporated in Delaware and has offices in New York City.

U. S. District Judge Mell G. Underwood of Columbus, Ohio, found Holophane had been a party to contracts and agreements in restraint of interstate and foreign trade.

The restraint involved allocation of world markets among Holophane and two alleged co-conspirators over whom U. S. courts have no jurisdiction.

These are Holophane Ltd., a British company, and La Societe Anonyme Francaise Holophane, a

French firm. Underwood found the agreements were designed to eliminate competition between the three firms and with outsiders in all world markets. The district court judge ordered the agreements canceled. He prohibited Holophane from engaging in various restrictive practices relating to foreign patents and trademarks. He also required the U. S. company to take certain steps to compete in territories of the British and French firms.

BLANKET OF POWER!

All Ohio Has Ample Electric Service

In Ohio dependable, low-cost, convenient electric power is available to everyone. The annual use per person in our state is nearly a third above the national average. There are now approximately 2,500,000 residential, rural, commercial and industrial customers.

Ohio's electric companies, since 1950 have spent more than a billion dollars for new facilities, bringing total investment in property and plant to over two billion dollars. In order to meet the challenge of the

times — to keep pace with such scientific developments as use of nuclear energy as a power source, and to satisfy new demands of customers — additional expenditures totaling well over a billion dollars are planned by 1960.

The money spent to date has come from investor funds, not taxes on you; future sums needed will come from the same source. Ohio electric companies pay their own way.

Report Recommends State Spend \$49 Million To Help Needy Schools

COLUMBUS, Ohio (AP) — A research report Tuesday recommended that the state spend \$49,532,695 during the next four years to help school districts relieve overcrowded classrooms.

The report, made by Robert Heller & Associates of Cleveland to the state board of education, said most school districts needing state aid are in northeastern and southwestern Ohio.

Top priority for the aid, the report said, should go to those districts in 1957.

Wayne District of Montgomery County, \$545,220; Mad River-Green of Clark County, \$468,689; Strongsville of Cuyahoga County, \$228,515; Perry of Allen County, \$580,330; and a consolidation of Amelia, Glen Este-Mt. Carmel and Withamsville - Tobasco of Clermont County, \$337,514.

State aid will come largely from part of a 150-million-dollar bond issue approved by voters. About 60 million dollars is left to be distributed among universities, public schools and public buildings.

The education board is preparing legislation that will let districts take advantage of bond issue money. The plan calls for the state to sell schools, built from bond issue money, to needy districts.

The board added \$280,000 to the two-year state education department budget for personal service and maintenance, bringing the total to \$7,124,726. During the biennium that ends next June 31, the department will have spent about

four million dollars for the same items. Amounts are higher now because the board has authorized more services.

Also approved for the two years were \$5,200,000 for school buses; five million dollars for school rehabilitation, and amounts for additions and operating subsidies for special and vocational education. These figures bring the combined budget total to \$18,946,889.

The board approved county board of education budgets totaling \$804,000 for the last three months of this year. The state will pay \$354,000 for the amount.

Among annexations approved by

the board was territory from Granville Exempted Village School District to the Newark City School District.

INVESTIGATES VOTING
DAYTON, Ohio (AP) — The Montgomery County Board of Elections Tuesday announced an investigation of voting procedures in a Madison Twp. precinct.

The investigation centered around reports that some residents of the precinct may have been denied voting rights on a zoning issue and that many persons who voted on the issue may have used hastily drawn ballots made of tablet paper.

Akron Firms Bid-Low On Highway Project

COLUMBUS, Ohio (AP) — Two Akron firms, the B. F. Perry Co. and M. B. Guran Construction Co., combined forces today to submit the apparently low bid of \$3,298,608 for building a 1.2-mile section of Akron's east expressway system.

The state highway department opened bids on more than eight million dollars' worth of road projects.

The state estimate for the Akron project was \$3,415,900.

The S. A. Groves & Sons Co. of Minneapolis, Minn., submitted an apparent low bid of \$2,159,834 for relocating eight miles of U.S. 224 east of Lodi, Medina County. That project will be part of the proposed Lodi Bypass. The state had estimated the work would cost \$2,349,600.

go Junction, submitted the apparent low bid of \$623,832 for building new bridges over the Pennsylvania Railroad and Pleasant Run east of Brinkhaven on U.S. 62. Most of the project is in Holmes County and a small portion is Knox County.

The state estimated the project would cost \$734,000. Sylvester Brothers of Youngstown submitted the apparent low bid of \$513,412 for relocating 1.3 miles of U.S. 422 in Youngstown.

The Man For The Job

The state board of education made a wise choice when it selected Harold S. Vincent of Milwaukee to be superintendent of public instruction in Ohio.

Mr. Vincent is one of the country's outstanding public school administrators and has won the respect and admiration of every community he has served as teacher, assistant superintendent or superintendent.

From 1947 to 1950 he was superintendent of schools in nearby Canton where his reorganization of the administrative structure, his leadership in executing a fine building program there and his constant attention to changing educational needs brought him wide acclaim.

During his tenure as superintendent in Milwaukee, the school system there underwent its greatest expansion. His problems there were, in many respects, unique but he handled them with skill and rare good judgment.

So outstanding were his qualifications that Mr. Vincent was quite obviously the first choice of members of the Ohio board from the very outset of their deliberations on a superintendent of public instruction.

But they were thwarted by a six-month notification clause, a contract that still had two years to run and a board of education clearly unwilling to grant a release.

When the Ohio board voted last July to delay its choice for six months, it was immediately apparent that Mr. Vincent was the man. His release now is believed to be only a formality.

We welcome Mr. Vincent's return to Ohio, where his opportunity for service to the state he to the state he has called home since 1926 has called home since 1926 is so great.

The Only Real Answer

Of all the replies to Switzerland's proposal for a new summit conference at Geneva, only President Eisenhower's bears the mark of profound thinking on effective ways to achieve world peace.

Premier Bulganin's statement that he would accept because the Soviet government "always is willing to settle outstanding problems peacefully" was just more Moscow hogwash, belied by every Russian action at a point of crisis in the world.

Prime Minister Eden's statement that he is ready "to go anywhere and meet anybody" to discuss the world's problems showed political acumen but shocking lack of the selective analysis expected of a leading diplomat.

France's expression of "interest" revealed the indecisiveness that pervades the modern Gallic political character.

India's outright acceptance was just that—a sort of no-second-thought decision.

President Eisenhower, on the other hand, praised the Swiss for their sincerity but declared that the place and time for settling the world's current acute ills are not Geneva a few weeks or months hence, but the United Nations now.

The lure of a summit conference lies in the illusion of security inspired by the idea that "if you're talking, you're not fighting." But like all illusions, that one is purely transitory. Real progress toward settling specific problems at a summit meeting is nil.

Mr. Eisenhower has reminded other nations that the only sound hope for anything approaching permanent peace lies in the United Nations. And he sees the current Hungarian and Suez situations as live-or-die opportunities for the international body to prove it is worthy of life.

The President has made it plain he will not betray the real battle for peace by running off to a glittering assemblage that would accomplish nothing but headlines.

Birthday Wish

As Mamie Doud Eisenhower celebrates her 60th birthday, wishes for "many happy returns" are more than mere empty salutations. For, beyond the truth that the First Lady's popularity inspires sincerity in her well-wishers, facts and history indicate the President's lady can look forward to a very ripe old age.

The cold figures of the actuarial tables put her life expectancy at almost 20 years. But perhaps more significant is the record of longevity of her predecessors, whose average age of 66 should be considerably higher were it not for the early deaths of three—Martha Jefferson before 35, Hannah Van Buren before 40, and the first Mrs. Theodore Roosevelt before 25.

And the average would be raised further by the four former mistresses of the White House happily still with us. Bess Truman and Eleanor Roosevelt are in their early 70s, Grace Coolidge is in her late 70s, and Edith Wilson is past 80.

Of the 28 other presidential wives who celebrated their 60th birthday, more than half reached their 70th, 11, including Dolly Madison, reached 80, and 5 lived beyond 85.

So to Mamie Eisenhower we extend a well-founded wish for "many happy returns."

Come deer hunting season and a lot of careless men will be shooting at each other again.

Sugartree Alley

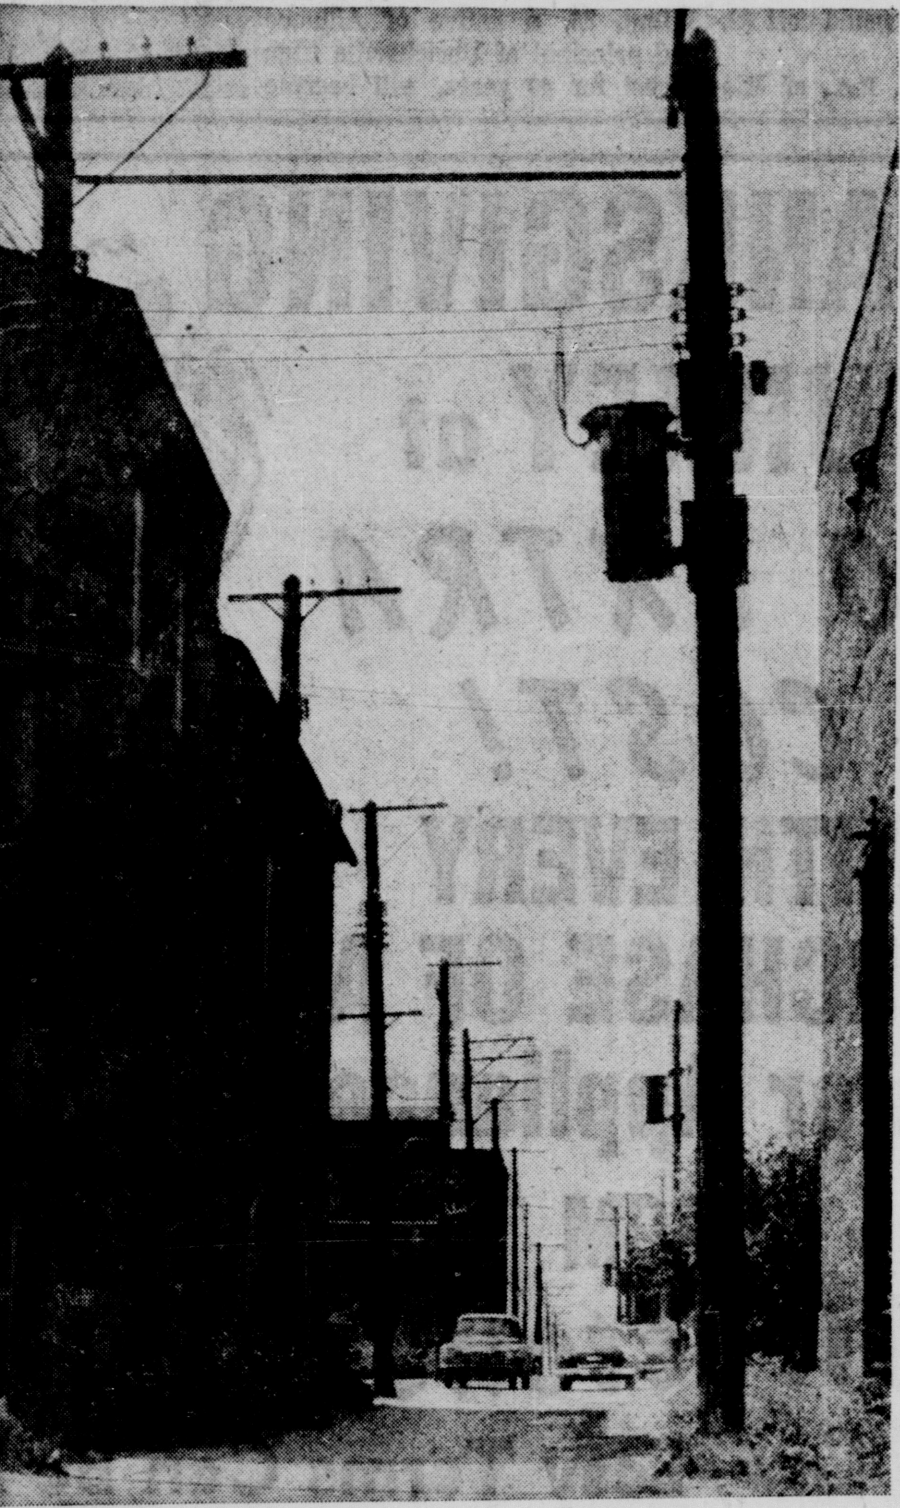

Poles Are Traffic Hazard On 'Street'

Is Sugartree Alley a traffic bottleneck or does the narrow thoroughfare help to relieve downtown traffic congestion?

The alley, so named because of a large sugar maple tree which stood along its path in the horse and buggy era, is no wider today than it was many years ago. Paralleling State Street, Sugartree Alley measures 15 feet, 10 inches in width, just wide enough to permit two automobiles to pass.

The alley, or "pole alley" as it might be called more appropriately, is dotted by rows of Ohio Edison Co. utility poles which are a hazard to every motorist who uses the paved surface as a short-cut to get around town.

City Council could perform a service to the community by pursuing a program to have the "sugar trees" on Sugartree Alley moved back a few feet.

A General View Of Sugartree Alley

A Look At Farm Income

By SAM DAWSON

NEW YORK (AP) — In their competition for the consumer's dollar a number of industries are taking a closer look today at the farm.

Belief that the long decline in farm income totals has stopped and that a reversal in the trend is due heartens merchants who even during the slump that followed the end of Korean hostilities found the farm market good for such things as freezers, stoves, TV sets and wall-to-wall carpeting.

The Department of Agriculture estimates that farmers will spend five billion dollars more in the next four years for home appliances. And the carpet institute reports that the number of farm families remodeling or redecorating their homes is well above the national average.

The farmer's spending habits appear to be in their third major phase since World War II.

Farm income rose sharply during the war. And the first phase was the use of the increased income to pay off old debts. It is estimated that seven out of every ten farms are now clear of mortgage.

Farm income continued high after the war and the farmer put a lot of it into buying new farm equipment. Last year the investment in machinery and motor vehicles used on the farm was estimated at nearly 18 billion dollars, about six times as great as in 1940.

This phase came to a fairly sudden halt when the prices of farm products turned down — as makers of farm equipment can testify. The farmer decided to get along with the machinery he already had.

The third phase, which merchants say has been particularly notable in the fifties, has been the purchasing of household equipment. Arrival of electric power to many rural areas helped, and farmers turned to raising living standards. The department of agriculture reports the standards in the farm houses are now more than 50 per cent higher than before the war.

A marked increase in the last two years in the sale of carpets and rugs, for example, is reported by the carpet institute.

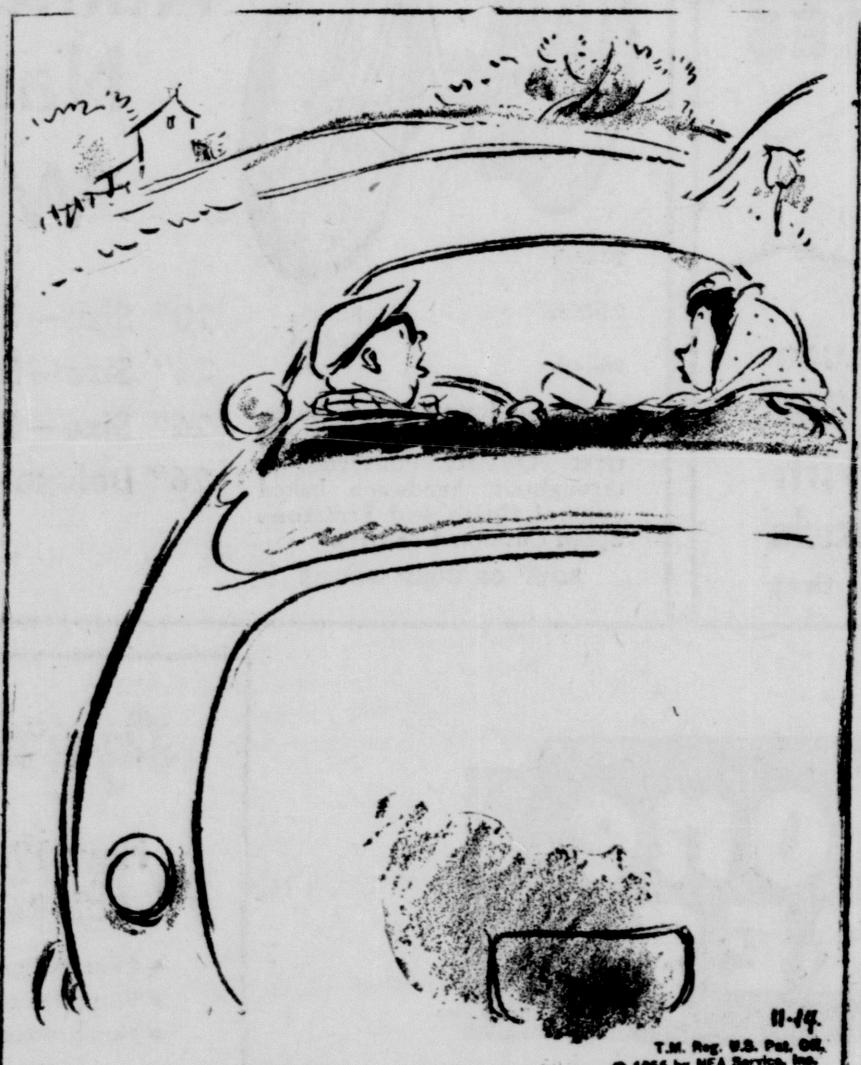

Next year should see the start of "a steady, though gradual, improvement in the economic status of the farmer and of the industries which stand beside him," in the opinion of Irving A. Duffy, general manager of Ford's tractor and implement division. He predicts gross farm income in 1957 should be four per cent higher than this year.

Getting Good Brains Cheap

By GEORGE SOKOLSKY

It is difficult to understand why our colleges and universities should expect to be able to employ competent men and women to teach the youth of this country on inadequate pay.

The average annual pay for faculty members in the United States, according to the National Education Association, is \$5,243 which is about \$100.82 a week and that is not take home pay. This average includes the highest salaries, so that there must be many which have a take home pay of under \$80 a week.

To get this salary, most of these men and women have put in at least five years of study after high school, and most have Ph.D.'s which means more years of work.

THE AVERAGE PAY for a college president, whose functions, apart from scholarship, are not unlike those of a corporation president or a high echelon public official, is \$11,314 a year. There may be additional compensations such as a beautiful but for some reason usually badly-heated house, an automobile and the fringe benefit of a pension.

Money, of course, isn't everything, but teachers marry and have children and are expected to read lots of books and magazines and to be specialists in difficult subjects. It is not to be wondered at that so many of them are dissatisfied.

A man who knows how to make an H-bomb cannot earn a decent living at his trade, to say nothing about earning as much as a funny-face that appears on television to advertise a hair spray or the tip of a cigarette.

THE TROUBLE with college education in the United States is that too much money goes into buildings and too little is left for brains. After all, a learned man can inspire youth in a tent or sitting on the stump of a tree, or in a little red schoolhouse.

Some students measure the worth of a college by its country-club atmosphere which is not good enough for an education.

I was talking to a girl recently who said that she had majored in economics; so I thought that we might have a discussion on the difference between classical economics and the stuff which the Keynesians teach to our young.

She only got a good grade in that course and of Ricardo she apparently knew almost nothing except that he and Adam Smith were old fogies. I wanted to ask her if she thought that they had voted for Herbert Hoover, but forbore.

She reminded me of the young fellow who had heard someone say that George Bernard Shaw wrote "The Quintessence of Ibsenism" and thought it was a play because Shaw was a playwright. I wanted to tell him that Shaw also wrote a lot about Richard Wagner who was a German and that that proved that Shaw was a Nazi — but I forbore.

GOOD GRADES apparently are unrelated to thinking in some of these places where the professor worries how he is going to pay for baby's shoes, the price of which constantly goes up despite the fact that the aforesaid professor teaches economics in a school of business.

When there is so much shouting about the training of scientists and

engineers, there ought to be a little interest in who is going to do the training, not only of those who devote themselves to the polytechnic but also those who are of the university, which is a place for an access to universal knowledge.

Surely the underpaid will be conscious of their financial disabilities and if they are entrusted to teach philosophy or the social sciences, they are likely to feel that they have been proletarianized.

WHEN THE AVERAGE pay for

deans of women, the moral guides for your daughters, is \$5,200 a year, but for press agents, euphemistically called directors of public relations, is \$8,000 a year, there is something wrong with the wage scale and the sense of proportion.

A press agent may be a good guy and he may be able to get the college president's name in the papers, with a picture but is he really worth more than a head librarian?

It is not that money alone counts; it is that money is needed to live in this world.

Crisis Of The Hour

By DAVID LAWRENCE

Problem Is, 'How To Halt Dictators Without War'

The world is faced again with the unsolved question that has plagued civilization for centuries — how to maintain international order and prevent war when there are reckless and irresponsible men at the head of autocratic governments indifferent to all moral suasion.

The drift once more toward the exercise of military force even as the peoples of the world cry out for some moral force to make governments behave.

The crisis of the hour is not going to be solved by a United Nations police force. The very idea back of it implies that there is somewhere a military power big enough to make Soviet Russia's volunteers and Egypt's guerrillas, on the one hand or the British and French and Israeli armies, on the other hand, withdraw in favor of a neutral police and refrain from further conflict.

THE TRUTH is that the United Nations is only as strong as public opinion in all countries can make it. And before public opinion can be mobilized, there has to be a fair and comprehensive exposition of the facts for all to read and judge.

Thus, the Soviet government has just brazenly announced that it will send "volunteers" to Egypt to fight. In fact, it has already sent aviators and technicians to Egypt. This is intervention by force under the full authorization of the Moscow government.

The United Nations should be denouncing that action day in and day out and should be reminding the world of a precedent — the Communist "volunteers" who resisted the U.N. forces in Korea from 1950 to 1953 and inflicted casualties of tens of thousands.

What is even more important now is an expose of the facts of the Soviet involvement in the last several months in arming the Egyptians against the Israelis.

The U.N. cannot get much sympathy throughout the world if it does not focus on the situation produced by the Soviets and confines itself only to criticism of the measures of defense taken by Britain and France against Egypt for the illegal seizure of the Suez Canal.

THE WORLD OUGHT to be informed of just what did happen prior to the British and French decision to use military force in reprisal against Nasser's violation of the Treaty of 1888.

Likewise, the United States government should open its intelli-

gence files and disclose the intrigue engaged in by Nasser with Moscow even as he was negotiating for American funds to help him build the Aswan Dam. The break-off of those negotiations, which has been criticized as "abrupt" by uninformed critics, was directly due to the discovery of deceit and treachery in Cairo.

The presence now of many millions of dollars worth of Soviet arms in Egypt — some of it captured by Israel — is confirmation of what was discovered when Nasser was trying to play a double game with America.

Moral force can never be a complete substitute for military force, especially if irresponsible dictators like Nasser are bent on the mad pursuit of power. But the conflict can be localized and the area of hostilities limited if the peoples of all the other nations understand the issues and if the U.N. has the courage to call a spade a spade.

Thus, the Hungarian situation is an example of a new war between the government of the Soviet Union and the people of Hungary.

HERE IS an act of aggression which has infuriated the whole world.

Can the U.N. protect the independence of any small country when a major power decides to go on an imperialistic rampage?

Will the Soviet Union now withdraw her troops from Hungary even as she is demanding that Britain and France withdraw their troops from Egypt?

The U.N. must put the two cases on the same basis and insist that member governments, large or small, in order to earn the right to be called "peace-loving" as the charter provides and in order to retain the respect of mankind, must withdraw military forces from any territory not their own unless the people of that country manifestly desire such troops as a protection.

MEASURES to ascertain the true will of the people are proper ones for the U.N. to pursue.

The U.N. has a great opportunity advance the cause of peace, but it must be backed by the moral force of the world — not only in the United States and in the other free countries but even behind the iron curtain.

The passion of peoples for freedom from tyranny as manifested in Hungary is as strong as it is anywhere else.

It Makes A Difference

The Red chiefs bleed for people wronged,
The deepest grief each shares,
Provided quite decidedly
The victim is not theirs.
"Barbarians," they loudly cry,
Their tender heartstrings bruised ...
But only when some other guy
Is of such acts accused.

II
"Aggression stark!" the Red chiefs yell—
"A most inhuman course!"—
At other folks as they gang up
On patriots in force:
"United Nations to the front!"
They cry ... but only when
It does not touch their own dark deeds
Revolting to all men.

III
"Oh, end these treacherous attacks
On folks who would be free!"
They ask with eyes on Egypt as
They murder Hungary;
"We stand for lofty principles,"
They say and ask a test
But crucify the young and old
In blood-drenched Budapest.

IV
"We are defenders of the peace,
We help the innocent,"
They loudly say in U.N. halls
As Hungary's hopes are spent;
"Uphold the freedom of all lands,"
The Kremlin leaders cry.
As Red tanks blitz a nation where
For freedom people die.

V
The scene in Egypt cheers few men,
It saddens far and wide;
Aggression anywhere on earth
Find few folks on its side;
But cynicism hits new depths
Where strides hypocrisy
To weep for Egypt and withhold
A tear for Hungary.

We'll wager that very few people can remember when a little money went a long way.

It doesn't take a lot of nerve to go to a dentist. Just one aching one.

Grandparents are people who drop in and spoil grandchildren and then go home.

Right now the goal of some college students is at each end of a long field.

The real political season will be here about the time golf season is over, so we'll still have a lot of bunkers.

Lausche Talks With Legislators

Studies Possibility Of Special Session

COLUMBUS, Ohio (AP)—Gov. Frank J. Lausche was to confer here today with state legislators on the possibility of a special legislative session.

Lausche has said he wants the Legislature to pass a law prohibiting strikes against public utilities and requiring arbitration of labor disputes with utility firms.

Republican legislative leaders, however, said a special session would not give adequate time for study of such a proposal. One legislator said the U. S. Supreme Court has declared unconstitutional a similar Wisconsin law.

The governor has been active several weeks in an attempt to restore telephone service in the Portsmouth area which has been under a telephone blackout since Oct. 16 after violence at company exchanges there.

The Communications Workers of America union struck Ohio Consolidated Telephone Co. last July 15. Parts of 24 southern and eastern Ohio counties are affected. The union has denied responsibility for strike violence.

Meanwhile, petitions bearing names of 20,600 persons wanting another telephone company to serve the Portsmouth area were filed Tuesday with the state utilities commission.

The petitions call upon Portsmouth City Council to pass a resolution asking the utilities commission to withdraw Ohio Consolidated's franchise in that area and direct another company to serve Portsmouth.

No such resolution accompanied the petitions. The commission had advised Mayor J. Harold Frecka that the resolution was necessary to accomplish aims of the petition signers.

Principal stumbling blocks toward an end to the strike have been the issues of union shop and union membership of supervisory personnel.

CHILDREN START FIRE

CINCINNATI (AP)—Children playing with matches started the fire in which a child perished Monday, fire officials reported Tuesday.

Fire Marshal Joseph Devine said the inquiry indicated that the boy who died, Thomas Covington, 4, and other children were lighting matches while his mother was in another room. The boy was taken out of the house after the fire started, but apparently wandered back in again and was trapped.

VISITS THE SECRETARY—Vice President Richard Nixon visits Secretary of State John Foster Dulles in the latter's suite in the Walter Reed Hospital in Washington, D.C. Dulles is recuperating from an operation he underwent November 3rd.

More Non-Fatal Road Mishaps Reported

COLUMBUS, Ohio (AP)—Fewer people are being killed, but there are more non-fatal traffic accidents in Ohio this year than last, a report by the state highway safety department says.

In releasing the figures Tuesday, Director U. C. Felty said 161 fewer persons have been killed this year. Figures are completed through October, a month in which the traffic death rate dropped 24 per cent from October 1955.

But January to August figures show 100,097 non-fatal traffic accidents, a 14 per cent increase over the same eight-month period a year ago.

Felty said he credits driver awareness of traffic dangers, increased enforcement and better traffic engineering for the decrease in deaths.

He warned, however, that "the dangerous months of winter driving are still ahead." In 10 months of 1956, records show 1,573 persons killed in Ohio traffic.

HEARING SET ON SHOOTING
CINCINNATI (AP)—Police Chief Stanley Schrotel Tuesday set a public hearing for next Friday on the shooting death by two police-

men of Peter White, 15, last month.

The Hamilton County Grand Jury last week absolved the officers in the shooting. Police said the Negro boy, sought by officers as a truant, was shot in his home as he rushed down from the third floor wielding a crowbar.

The Cincinnati chapters of the National Assn. for the Advancement of Colored People and the American Civil Liberties Union asked for probes of the shooting.

Couple Go On Trial For Burning Cross

COLUMBUS, Ohio (AP)—A Negro housewife testified Tuesday that neighbors in the predominantly white section where she lives offered to buy her a house \$3,000 to \$4,000 more, expensive than her own if she and her family would move from the area.

Mrs. George Lawson testified against Mr. and Mrs. Clayton Jones, charged with burning a cross in the Lawson yard last Aug. 14. The Jones' trial opened Tuesday.

Mrs. Lawson said Jones came to her house, along with two other men, shortly after her family moved into the Rosary Addition home

last April. She said they offered to buy her family another house worth \$3,000 to \$4,000 more, if the Lawsons would move.

"I got pretty mad," Mrs. Lawson testified.

She said the men told her she would have no friends in the neighborhood, would be out of place and would lower the property value of surrounding homes.

As the trial began, Judge C. L. Lester of Mount Vernon Municipal Court warned spectators he would not tolerate any "demonstrations in this courtroom or in the corridors outside it." Judge Lester is hearing the case by assignment.

Lawrence Marinaccio, a physician, testified for the state that he was with Jones at a meeting in a neighborhood school last May 2 attended by some 200 persons. He said the meeting was called to deal with what he termed the "Lawson question."

Marinaccio said the issue was referred to as "you know what"

throughout the meeting.

He said the meeting became disorderly, with the audience rising to its feet and shouting, after one

person said he was "dismayed" that there had been no discussion as to whether the Lawson family should remain in the community.

The first dream car you can own—not just look at!

MOST ADVANCED DESIGN IN CARS—Gone is the plump look of most other cars. Bulging curves have given way to bold, clean-cut lines. And there's new power to match—up to 290 horsepower!

THE BIG M FOR '57 WITH DREAM-CAR DESIGN

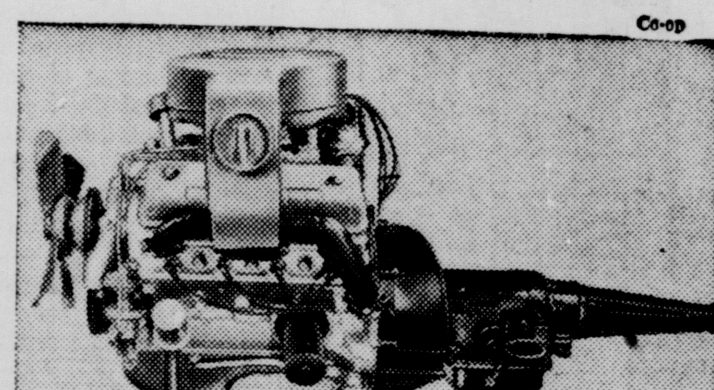

The all-new Mercury packs years of progress in one. It's new from Jet-Flo Bumpers to V-angle Tail-lights, from a Keyboard Control to an exclusive Floating Ride. New size, new weight, new ideas wherever you look!

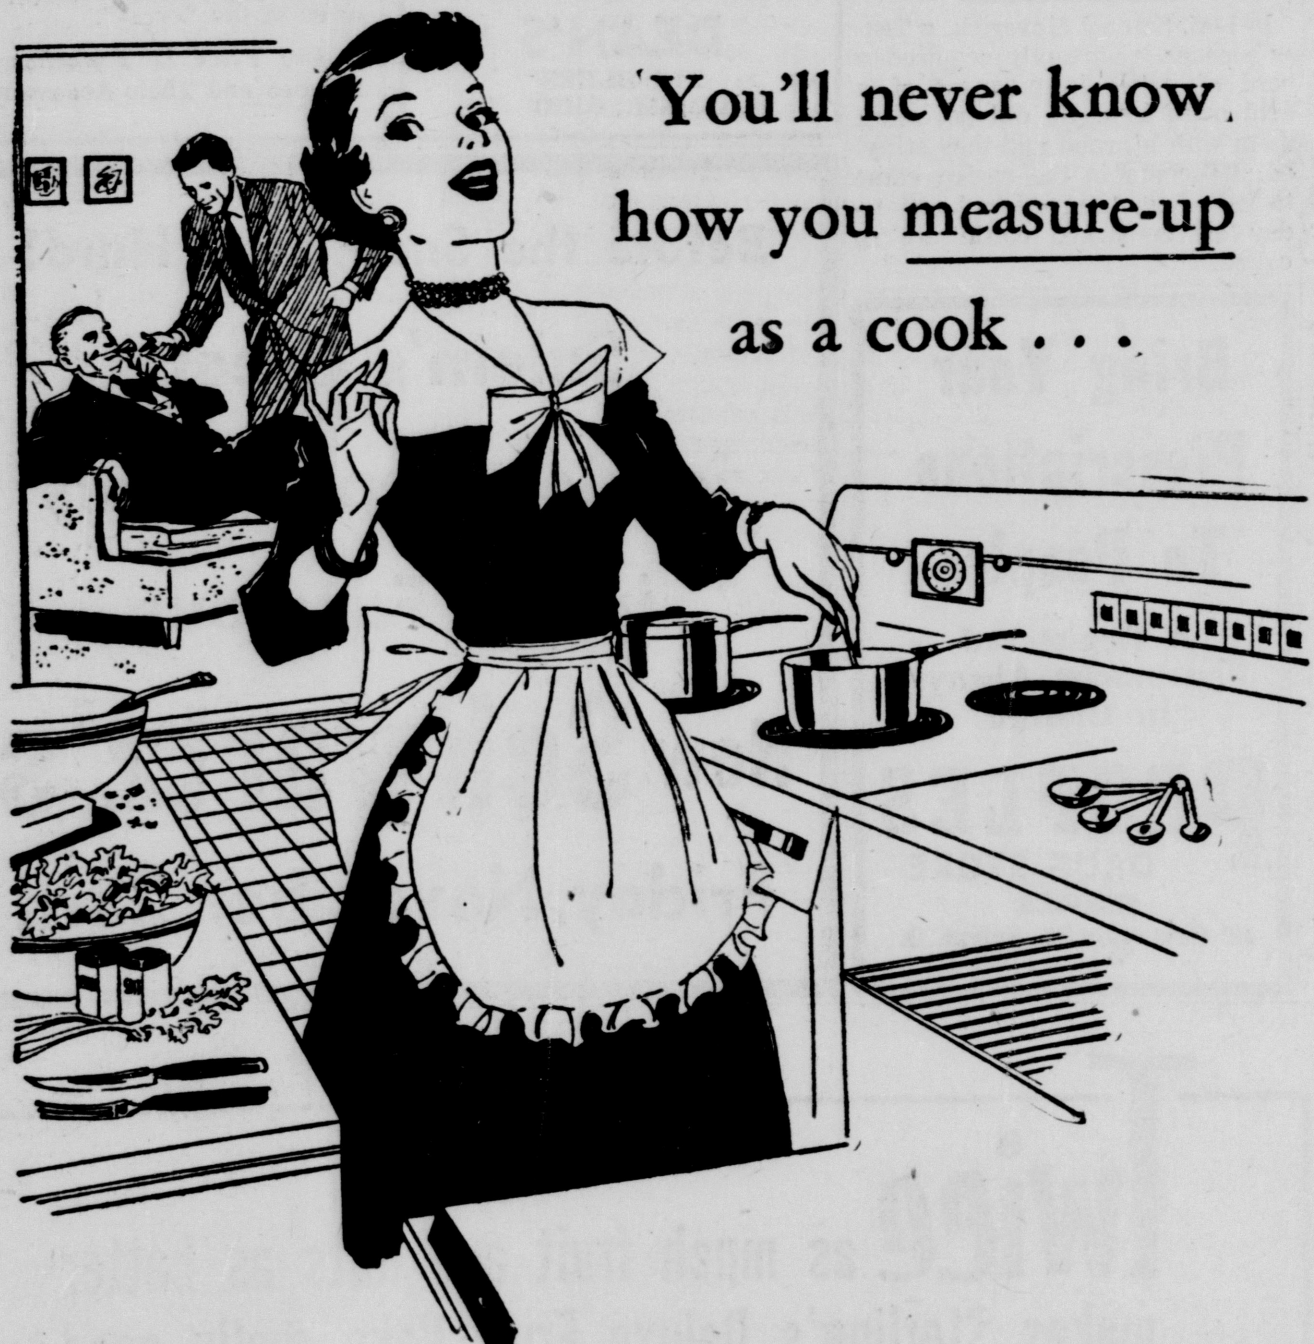

NEW KEYBOARD CONTROL—Far more than a push-button transmission. Controls 7 driving operations. Starts engine—controls neutral, drive, low and reverse—locks the transmission when parked, and even releases the parking brake.

NEW V-ANGLE TAIL-LIGHTS—A stunning example of Dream-Car Design. The dramatic slant of the tail-lights emphasizes the new width and weight of this bigger-all-over BIG M. Notice, too, the sculptured-steel roof, and the Jet-Flo Bumper.

DREAM-CAR FEATURES EVERYWHERE—A Power-Booster Fan, in the Montclair series, saves horsepower. The new Floating Ride has a cushioning action you have to feel to believe. But why not see all the dream-car features? Stop in today.

Methodist Church Groups Have Joint Dinner, Program

The Wesleyan Service Guild and the Crib-n-Cradle group of the Woman's Society of Christian Service met Monday for a joint covered dinner and program at the First Methodist Church.

The theme of the international

party was the United Nations. Articles from other countries and flags of member countries of the United Nations were displayed. Table decorations were animal figures from all countries and arrangements of fall flowers.

Guests were prospective members of the two groups and foreign students who are attending Mt. Union College, Youngstown University and Kent State University. The students are natives of Cuba, Japan, Brazil, Turkey, China, Thailand, British Guiana and Jordan. Other guests were Dr. and Mrs. Bliss Wiant.

Mrs. William Snowball gave the invocation at the dinner.

Dr. Wiant, who spent 23 years in China, serving under the Methodist Board of Missions as professor of music in Yenching University and the School of Religion in Peking, led the group in singing Chinese folk songs.

Each of the students then gave a short talk about his country, his studies here and his plans for the future and also his views on the United Nations.

Rev. William Snowball led the grand march, and Dr. Wiant closed the program with a prayer.

Arranging the program were Mrs. George Bergman Jr., Mrs. Wendell J. Beck of the Crib-n-Cradle group and Mrs. William Winter and Mrs. Walter Hanzlik of the Wesleyan Service Guild.

Hostesses were Mrs. Jack Doyle, Mrs. James Peters, Mrs. Ralph Dean, Mrs. Steven Hoffman of the Crib-n-Cradle group, and Mrs. W. R. Crowl, Mrs. Phillis Welsh, Miss Alice Whinery, Miss Eleanor McMurray, Mrs. Burton Sutter and Mrs. Donald Stapleton of the Wesleyan Service Guild.

The Crib-n-Cradle group will meet Jan. 14 at the home of Mrs. Daniel Babb of Southeast Blvd. The regular December meeting has been cancelled.

The next meeting of the Wesleyan Service Guild is scheduled for Dec. 10 at Mrs. Sutter's home on E. Pershing St.

Eleven members of the Evelyn Weaver group met at the church Thursday for a dessert luncheon and program. Mrs. Fred Capel, vice president, conducted the business, opening the session with a Thanksgiving poem.

For the program, Miss Helen French read from the Burma story published in the magazine, World Outlook.

Mrs. E. R. Grotefend was reported ill.

The next meeting will feature a birthday dinner and gift exchange Dec. 13 at the church. Hostesses are to be Mrs. C. H. Waldron, Mrs. Charles McKorkhill and Mrs. Lloyd Gordon. Mrs. Lester Baldwin will be in charge of the devotions and program.

The Hannah Gallagher group also met Thursday for a dessert luncheon at the church. Fifteen members and one guest were present. Mrs. F. A. Rinehart and Mrs. Charles Sarchet were hostesses.

Mrs. Carl Willman, co-chairman, conducted the business session. Mrs. Donald Getz gave the devotions and the program on the United Nations, which she illustrated with pictures and maps.

The next meeting, Dec. 13, at the church, will be a birthday dinner at 12:30 p.m.

Critchfield-Johnson Wedding To Be Nov. 24

Custom of open church will be observed for the wedding of Miss Janet Critchfield and Donald Johnson on Saturday, Nov. 24 at 3 p.m. in the First Baptist Church.

House Probes Results In Four Elections

WASHINGTON (AP)—A special House campaign investigating committee is eyeing election results in four congressional districts.

However, the committee, headed by Rep. Clifford Davis (D-Tenn.), has received only one formal complaint of irregularities.

The complaint came from New York's 17th Dist. where incumbent Frederic R. Coudert, Republican, nosed out Anthony B. Akers, Democrat, by slightly more than 300 votes. Akers has filed a complaint charging the use of "scurrilous and false" literature against him including allegations that he was supported by the Daily Worker, Communist newspaper.

He also complained that pictures of professional models and fictitious testimonials were used against him.

When Akers first voiced his protest, Coudert immediately caused a stoppage of the material objected to and said he had no prior knowledge of its distribution by his supporters.

The committee has sent an observer to Iowa to oversee the official canvass of votes in the 4th and 6th districts. The committee acted at the request of two Democrats, Steven V. Carter, who trailed incumbent Karl M. Lecompte, Republican, by 1,300 votes in the unofficial tally, and Merwin Coade, who led incumbent James I. Doliver, Republican, by 38 votes.

Neither of the two Democrats filed formal complaints, although both cited alleged irregularities.

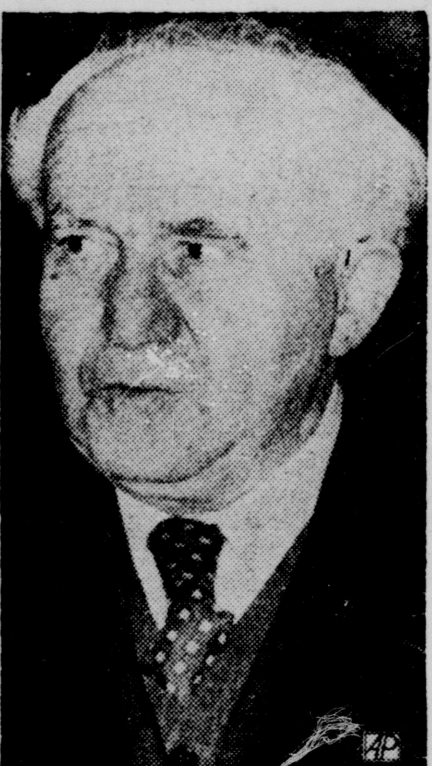

The committee also is acting as "observer" in the Sept. 10 election in Maine's 1st Dist. The incumbent, Robert Hale, Republican, won by a tentative official count of 29 votes. Democrats are challenging many ballots, including those cast by absentee voters.

Mrs. Eisenhower Turns 60 Years Old Today

WASHINGTON (AP)—Mamie Eisenhower turned 60 today and a family dinner was planned at the White House to celebrate the occasion.

Otherwise, her birthday shaped up as a quiet one, although she had a date to pose for pictures with representatives of the National Citizens for Eisenhower-Nixon.

Mrs. Eisenhower was born at Boone, Iowa, in 1896. She and the President have been married 40 years.

Conflicting Stories Are Told On Shooting in Gulf of Mexico

TAMPICO, Mexico (AP)—Mexican coast guardsmen and Texas shrimp fishermen tell conflicting stories of the latest shooting incident in the Gulf of Mexico. The Mexicans charge the Texans with fishing in their territorial waters; the Texans deny it.

Capt. Tom Wilson of the shrimp boat Pescadora, wounded by rifle fire from a Mexican cutter in the fracas Monday, was reported in good condition in a hospital here. He may be flown home to Brownsville, Tex., today.

U. S. Consul George D. Whittinghill said Wilson suffered "a light wound" and would be "up and around in a few days."

A formal hearing will be held

Premiers Tell Reds To Leave Hungary

NEW DELHI, India (AP)—The prime ministers of India, Burma, Indonesia and Ceylon called in a joint communique today for the speedy withdrawal of Soviet forces from Hungary.

They also voiced "strong disapproval and distress at the aggression and intervention by the great powers against weaker countries" in the Middle East.

The communique was issued after a three-day conference convened at the suggestion of Indonesia to consider Israel's attack on Egypt and British - French operations in the Suez Canal zone. The final text, however, by mentioning "the great powers" could be taken to apply to Russia as well.

Detective Says Lyons Told Of Killing Woman

CINCINNATI (AP)—A police detective testified Tuesday that Robert V. Lyons, under lengthy questioning, admitted he stabbed a Hyde Park woman to death after being shown a fake fingerprint.

Detective Eugene Moore told the jury that Lyons became emotional after police said the print was found in the home of Mrs. Audrey Evers Pugh, and finally said, "yes, I stabbed her."

Moore's partner, Detective Wilbert Stagenhorst, was testifying Tuesday when court was adjourned in the trial of Lyons, 43, onetime city water meter reader, for first degree murder in Mrs. Pugh's death.

Moore said that Lyons became emotional after officers represented the print as found on the second floor level of the Pugh house. He said the defendant later calmed down and gave a detailed confession.

That statement, later put into

writing, is one of the controversial points of the trial. Lyons later disavowed it and said he is innocent.

The detective also testified that Lyons told him, while he was questioning the defendant alone, that he killed Mrs. Pugh with a pocket knife and threw it in the river.

But the former city worker later changed his story, Moore said, and told him the weapon was a paring knife taken from Mrs. Pugh. The paring-knife version was put into the written statement.

The detective said that he questioned the defendant alone because he had doubts about the murder weapon cited by Lyons, and questioned the motive given by the defendant for the stabbing death.

He quoted Lyons as saying the knife came after Mrs. Pugh called him a fool three times for knocking on the wrong door to check the meter.

Also Tuesday, Dr. Frank Cleveland, coroner's pathologist, showed color photos of Mrs. Pugh's wounds which, he said, showed configuration that could not have been caused by knives found in the Pugh home.

The prosecution has maintained that the murder weapon was not found.

Mrs. Pugh's body was found by her husband on the day of her death, April 11, when he returned home from work.

Lyons was arrested 45 days later and after questioning on May 25 and 26, was charged with murder.

Near-Capacity Crowd Views Finale Of Kiwanis Kapers

A near-capacity house enjoyed the Salem Kiwanis Club's concluding performance of the Kiwanis Kapers of 1956 minstrel show Tuesday night in the Salem High School auditorium.

As in previous shows the Kiwanians displayed real talent as entertainers and the colorful costumes of the minstrel chorus and end men added to the overall setting.

Orelin Naragon, Wade McGhee, and Charles Merrill sang solos much to the pleasure of the crowd while the chorus harmonized on many of the familiar minstrel tunes like "Old Folks at Home," "Swanee," and "Waiting for the Robert E. Lee."

The end men performed creditably in their black-face roles and the Sizzlers jug band showed that "washboard" music can be harmonious.

All in all, the Kiwanians are to be commended for their show if

Obituary

Mrs. Charles Riley

Mrs. Lina E. Riley, 71, of RD 4, Salem, died of a cerebral hemorrhage at 12:30 a.m. today in the Delp's Mansion Nursing Home in Youngstown.

Born in Berkley Springs, W. Va., April 6, 1885, she was the daughter of Jacob and Mary Schneidmiller Miller. She married Charles Ross Riley in 1903. He died Nov. 5, 1954.

A member of the First Friends Church, she was formerly employed as a seamstress at the R. S. McCulloch Co. and Schwartz's Store.

Survivors include a son, Charles Bruce Riley of Beloit; a daughter, Mrs. Harold Talbot of Salem; two grandchildren; and a brother, John T. Miller of Magnolia, O.

Services will be held at 1:30 p.m. Friday at the Bieber Memorial Funeral Home, with interment in Grandview Cemetery.

Friends may call at the funeral home Thursday evening.

Landis McFarland

Relatives in the area have received word of the death of Landis McFarland who succumbed Monday at midnight in Phoenix, Ariz.

Mr. McFarland, a former Leetonia resident, left for Arizona about eight weeks ago to reside.

Funeral arrangements are pending.

Anti-Reds Picket New York Rally

NEW YORK (AP) — Jeering anti-Soviet pickets hurled ammonia-filled bottles, tomatoes, eggs and sticks Tuesday night at the entrance to a rally of the National Council of American-Soviet Friendship. No one was injured.

Negro singer Paul Robeson and controversial Brooklyn rector William Howard Melish were special targets of the pickets.

About 20 demonstrators, most of them Hungarians and Hungarian-Americans, banded together outside the Pythian Temple, where the rally was held.

They shouted "Freedom for Hungary!" and "America will never be friends with murderers!" as hundreds of persons entered the building.

More than 250 patrolmen, mounted police and detectives kept the placard-waving demonstrators in check.

The rally was called to mark the 39th anniversary of the founding of the Soviet Union and the 23rd anniversary of the establishment of diplomatic relations between the United States and Russia.

'Mentalist' Correctly Predicts Ike's Vote

LOS ANGELES (AP) — Jack Swimmer, who calls himself a mentalist, had the Board of Supervisors stumped today.

For inside a box, locked inside another box that had been locked in the county safe since last month, the supervisors found just what Swimmer said they'd find—the exact figures for President Eisenhower's vote tallies in California, Los Angeles County and the nation in last week's election.

The box had been sealed by the county clerk when Swimmer put his prediction inside on Oct. 10 in a get-out-the-vote stunt. When it was opened by the chairman of the Board of Supervisors Tuesday Swimmer never was closer to it than four feet.

But there were the figures, correct right down to the last digit. How did he do it? Swimmer isn't saying.

Ohio Friends Missionary Board Representatives To Visit India

Representatives of the Ohio Friends Missionary Board will embark on a trip to India Thursday for a four to six-week study of missionary problems in that country. The representatives are Ralph

Comfort of Tecumseh, Mich., and Rev. Chester Stanley of Damascus, missionary superintendent of Ohio Yearly Meeting of Friends.

The Missionary Council in the field had requested the board to take action because missionary work was becoming difficult, due to the rise of nationalism in India. The Ohio Yearly Meeting of Friends began missionary work in India in 1890.

The men will meet in New York City where they will board the British Overseas Corporation plane for Glasgow, Scotland.

They will spend a few days sightseeing in London, England; Paris, France; Frankfurt, Germany; Geneva, Switzerland; Milan and Rome, Italy; Athens, Greece; Istanbul, Turkey; Karachi, Pakistan and New Delhi, India.

The major part of their visit will be spent in the larger cities of Central India, including Calcutta.

On the return trip, they will cover Rangoon, Burma; Hong Kong, China; Manila in the Philippines; and Taipei, Formosa. Ten days will be spent in Chiayi, Formosa, where the Friends mission is located.

On the last leg of their journey, they will visit Tokyo, Japan; Honolulu, and Portland, Ore.

Berlin Dam Job To Boost Water Supply

Work was begun recently on an intake tower and pumping station at Berlin Dam on the Upper Mahoning River which will double the Mahoning Valley Sanitary District's water supply.

The new facilities, being built by Dravo Corporation of Pittsburgh, will feed up to 30 million gallons of water per day into the present water system, which serves 200,000 persons in the Niles and Youngstown areas.

From the dam, in Berlin Township, the additional water will be pumped through a nine-mile pipeline into Meander Creek, which flows into Meander Reservoir, the sanitary district's present fresh water source. The Meander Reservoir is now yielding all of its 30-million gallons daily capacity, which is inadequate to meet the area's growing needs. With the water from the Berlin Reservoir, the Sanitary District's daily capacity will be boosted to 60 million gallons.

The new intake tower, an oval-shaped structure of reinforced concrete, will be set in a cellular steel sheet pile cofferdam 45 feet upstream of the dam.

All work is expected to be completed in about a year and a half. By that time, the output of the Mahoning Valley Sanitary District's present facilities should be will rise to 45 million gallons daily. Based on population forecasts, the area will need 35 million gallons a day by 1960. By 1970, the need will rise to 45 million gallons daily. A peak of 60 million gallons a day is foreseen by the year 2000, when the population of the area is expected to be 350,000.

Funds for the Berlin Dam project will come from a \$6,000,000 bond issue floated by the Mahoning Valley Sanitary District last Spring.

wegians and the first 35 Canadians. More soldiers from all three countries were expected later today.

Looming over the U.N. operation were conditions laid down by Egypt for the policing role and the conflicting British, French and Israeli positions.

A major supply and housing headache was building up for the hurriedly assembled U. N. command. It has been estimated the international organization eventually will total 10,000 men, and the troops being hurried into Naples already were straining local accommodations.

No logistics base has been set up. No one knew where the bulk of the troops were to be billeted, either in Italy or in Egypt, and no one knew where next week's rations would come from.

Policeman's Son Held Following Stabbing

CLEVELAND (AP) — A son of a police officer was held for questioning today in the stabbing of a 19-year-old youth.

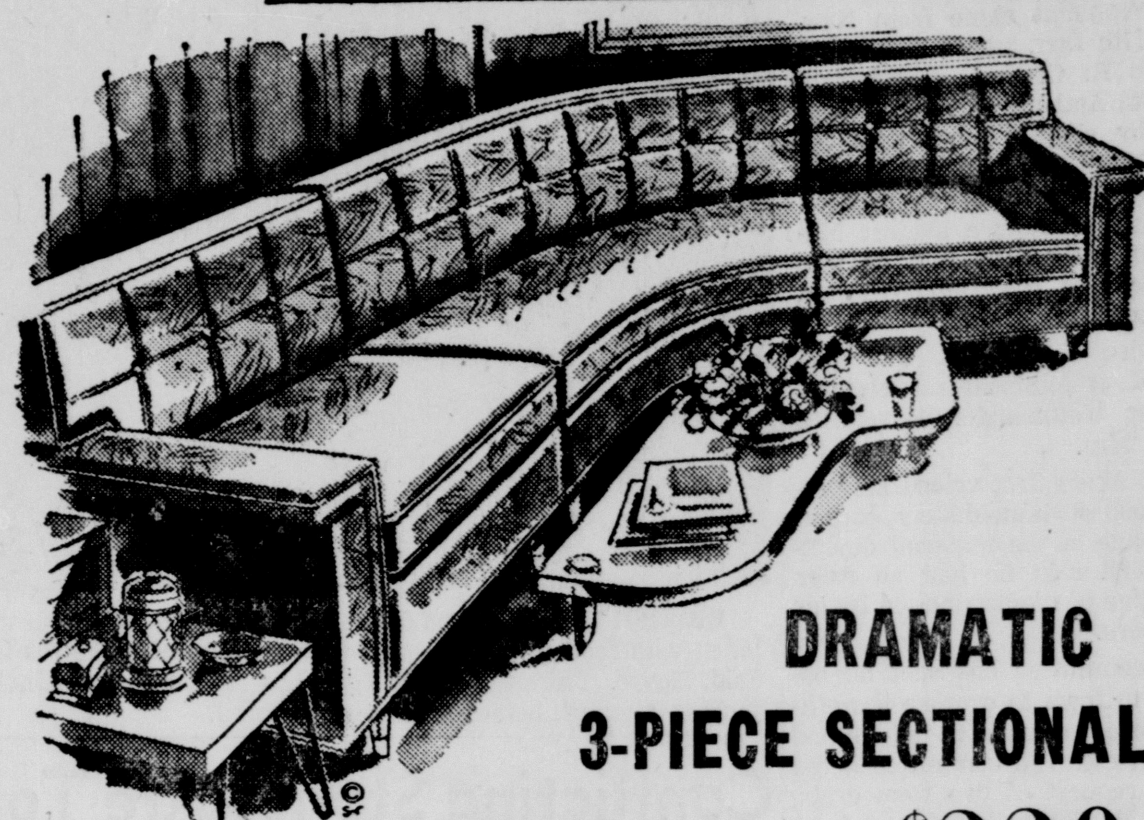

Detectives said Joseph Walford, of Mentor-on-the-Lake, was stabbed in the stomach with a butcher knife Tuesday night following an argument. He was reported in critical condition at Mt. Sinai Hospital.

Officers named Warren Bayless, 21, son of Police Lt. Norman Bayless, as Walford's assailant. No charge was filed against him pending further investigation.

Columbiana Historical Museum Idea Is Taking Shape

Society Appoints Planning Committee For Edifice

COLUMBIANA — A project of the Historical Society of Columbiana and Fairfield Township for the establishment of a museum in Columbiana took definite shape at the annual meeting of the society in Grace Evangelical and Reformed Church Monday evening with the appointment of a planning committee.

Miss Leila F. Beard, president of the society, who had been authorized to name such a committee, announced that Herbert C. Nolan will be its chairman and have the co-operation of Leo Holloway, Roy Guy and Mrs. Dick Fitzpatrick, all of Columbiana, and Allen Heston, executive vice president of the National Rubber Machinery Co. in Akron, who will represent out-of-town members of the society.

Mrs. Allan White, secretary, reported that the society has a fund of \$7,962.51, about \$6000 of which was profit from the sesquicentennial celebration in July last year. The membership is 154, a gain of 22 since last July.

Trustees elected for three years were E. B. Dillon, Mr. Guy, Mrs. White and George Seederly. Records of the sesquicentennial pageant, "Singing Wheels," were played.

HARRY EBERHARDT, community service chairman of the Rotary Club, presented three members of the Columbiana Welcome Wagon Newcomers' Club, who gave the program for the Rotarians at Valley Golf, Monday evening.

Mrs. J. B. Carpenter, president of the Newcomers, told why she and members of her family chose Columbiana as a place in which to live, listing the park, cemetery, and schools, and emphasizing the general air of cleanliness. She told of the work of the club, which will be a year old in February. It is sponsoring a troop of Brownies, and assisted with the work in connection with the recent visit of the bloodmobile to Columbiana.

Miss Irene Blank and Mrs. Allen Wilkoff gave a humorous skit depicting a call of a welcome wagon hostess on a newcomer.

Rev. William J. Smart of London, British Methodist minister who is conducting a preaching mission at the Methodist Church, was a visiting Rotarian. Other Rotarian visitors were Dr. Hubert Clapp of Crookston, Minn., H. C. Deichert of Youngstown, and H. E. Zimmermann of Salem.

District Governor Sam H. Pollock of Steubenville will pay his official visit to the Columbiana club next Monday evening. The meeting will be followed by a club assembly in charge of officers and committee chairmen.

Highways and streets, their construction and the federal and state programs, were the subject of a discussion by Don Griffith of the Diamond Portland Cement Co. in Canton at a meeting of the Kiwanis Club at Heck's Restaurant

Monday evening. A film was also shown.

Charles Rohrer was a guest of Willard Ferrall. A Thanksgiving program Monday evening will be in charge of Warren Miller, chairman of the support of churches committee.

The Sun Oil Co. has bought of Thomas D. Watt a little more than an acre of land along the south side of the Route 14 by-pass, the entire distance between Routes 46 and 164 and plans to establish a \$25,000 service station. Possession will be given Dec. 1.

The length of the tract along the by-pass is some 200 feet and its depth about 150 feet along Route 46 on the west side and Route 164 on the east side. Youngstown representatives of the oil company closed the deal with Mr. Watt. Until recently, Sunoco had operated the station at the southeast corner of Main and Salem Sts.

Overload Fines Total \$4,371 Here In Week

Mayor Dean B. Cranmer reported today that during the period of Nov. 1 through Nov. 8, 86 truck drivers were fined \$4,371.80 here on overload charges alone.

Mayor Cranmer attributed the increased rate of arrests to the closing of Rt. 224 while a new railroad crossing was being constructed at Berlin Center, forcing truck drivers to detour through Salem.

State patrolmen from Kent, Canfield and Salem, stationed at the

trucking scales on W. State St., arrested an average of over 11 drivers a day during the one-week period.

DIES IN CAR CRASH — BOWLING GREEN, Ohio (AP)—A 31-year-old Licking County man was killed about eight miles northwest of here Tuesday night when his car went off the end of a dead-end road.

The state highway patrol identified the victim as George Blanton of Rt. 1, Johnstown. They said his car went off the end of Anderson Rd..

Retiring At 65

By HAL BOYLE

NEW YORK (AP) — Curbstone comments of a pavement Plato: Twenty years ago a middle-aged man had the hope that if he could just keep his ulcer quiet until he was 65 he could retire and live happily ever after.

Today the idea seems to be spreading around that it is work that keeps a fellow young, and retirement that causes him ulcers. Ever since man first climbed down out of the trees he has dreamed of a day when he could gnaw a twilight bone in peace without having to do battle with a saber-toothed tiger.

He finally has the answer—the old age pension. But many today seem to view retirement as a life-shortening curse instead of a blessing. All they mention about a pension is the tension it supposedly brings—the unhappy lost feeling of uselessness when there is no longer any duty to walk the treadmill of the daily job.

It has taken two centuries of argument, strikes, occasional headthumpings and the growth of social responsibility to win pensions in our machine age. Yet now some corporations are de-

nounced as "heartless" because they do retire their employees at 65.

You get a mental picture of thousands upon thousands of faithful old employees dying of heartbreak because they no longer have the joyous privilege of keeping their noses to the grindstone until they keel over dead.

Somehow this picture doesn't square with the facts of the situation as I run across them.

The theory of retirement is like the practice of sex. It may be subject to certain justified criticisms, but nothing will ever make it downright unpopular with the masses.

Quitting at 65 a job held for many years is a sad blow to many men, and it is a major readjustment in living for any man. But the biggest roller made by most codgers on "R" (for retirement) day isn't made because they yearn to go on endlessly laboring. Their real squawk, often justified, is, "My pension check isn't big enough for me to live the way I want to."

Most men in any period of history have been willing—if they

could do so without starving—to quit paddling their own canoe at 65 and float quietly along for the rest of their journey, enjoying the view.

Most men still are. A man who doesn't have enough imagination or memories to live gracefully in retirement probably isn't much of a fireball at his job either, and you can't blame an employer for wanting to turn him out to pasture and replacing him with a younger man.

Only a dull or basically selfish man is bored to actual death by retirement. If he's still an eager beaver at 65 being pensioned at 65 won't kill him. There are a thousand ways in which he can still make himself useful to the community and to himself. No man with an outgoing heart or hand has any reason to feel useless in this world, unless his real desire is to indulge in self-pity.

Most of the men I know who retired—including a couple who practically cried with regret at the time—have found a new way of life and a greater freedom from worry.

Sen. R. A. Pollack, 86, Dies In Canton

CANTON, Ohio (AP)—State Sen. Robert A. Pollack, 86-year-old Republican of Stark and Carroll counties and known as the "dean of the Ohio Senate," died Tuesday night in Aultman Hospital.

Pollack lost his bid for re-election last week to Ed Whitmer, Canton Democrat. Pollack started in the Legislature in 1899 when he was elected to the House. He served eight years in the House and 18 in the Senate.

Lee Refused Right To Sue Foreign Aid

WASHINGTON (AP) — The Supreme Court Tuesday denied Gov. J. Bracken Lee of Utah permission to file suit attacking constitutionality of the U.S. foreign aid program.

The proposed suit also asked the high tribunal to enjoin Secretary of the Treasury Humphrey from using funds for foreign aid.

In his plea to the court for permission to file the suit, Lee said: "Congress under the Constitution has no power to collect and expend taxes for such purposes. Enforcement of federal tax laws within Utah is causing not merely a violation of the rights of Utah citizens in their capacity as U.S. citizens but financial damage to the state itself."

Lee, a Republican, sought reelection as an independent in last week's election but lost to Republican George D. Clyde. His term expires in January.

Lee has been critical of President Eisenhower and favors the United States getting out of the United Nations. He has refused to pay the part of his 1955 income tax which he estimated would go for foreign aid.

The governor's request to the Supreme Court was that he be allowed to file an original complaint, that is one in which first action would be taken by the high court.

Robert W. Lea, 70, Industrialist, Dies

NEW YORK (AP)—Robert W. Lea, 70, president of Johns-Manville Corp. until his retirement in 1951, died Tuesday at his home here.

After he retired from Johns-Manville at the age of 65, Lea became a director and adviser to Olin Industries, Inc. He resigned last January but continued as a consultant to the Olin Mathieson Chemical Corp.

Born in Woodville, Wis., Lea began his career in 1907 with the Otis Elevator Co. in Chicago. He managed plants in Moline and Quincy, Ill., until in 1911 he became vice-president of the Moline Plov Co.

After World War I, Lea held executive posts with Stephens Motor Car Co., of Freeport, Ill., Moline Implement Corp., Lea's Fabrics, Inc., of Newark, N. J., and Continental Illinois National Bank Trust Co. of Chicago.

He joined Johns-Manville in 1939 and was elected president in 1946. Lea also served on the board of directors of Universal Pictures Co., Decca Records, Inc., Curtiss-Wright Corp., Olin Oil and Gas Corp., and the Delaware, Lackawanna and Western Railroad Co.

He is survived by his widow, Patricia, a daughter, Catherine Lea Seiffert of Moline, Ill., and a son, Albert, of Kansas City Mo.

O'Neill Will Draft Top Men for Cabinet

COLUMBUS, Ohio (AP)—Gov.-elect C. William O'Neill said Tuesday he expects to draft qualified people for his cabinet.

The attorney general said at his first news conference since last week's election that he has had few applications for the top posts in his administration, which starts Jan. 14.

O'Neill said he will spend the next two months making an intensive study "to see where we can improve on efficiency and save money."

Asked about talk of a "house-cleaning" in state jobs, O'Neill said he would "respect the integrity of the merit system. So far as those people who are under the merit system are concerned, they will remain in their positions."

"We expect to appoint people of our choice in the policy-making positions," he added.

O'Neill said one of his goals is to go forward with the interstate highway system to provide multiple highways connecting cities. He reiterated that he favors a financing formula calling for 90 per cent construction payment from the federal government and 5 per cent each by the state and cities on the portion of thoroughfares within city borders.

Sales of bottled soft drinks in 1955 increased for a record of 184.2 bottles per person annually in the U.S.

SIX-DAY GRASS—In Dallas, Tex., Leo Mistak shows a flat of a new quick-growing grass developed by Department of Agriculture researchers to take the place of hay destroyed during Texas' prolonged drought. Lausche Won't Turn Office Over To Brown For 11 Days

By REED SMITH

COLUMBUS, Ohio (AP)—Republican Lt. Gov. John W. Brown apparently had a valid premonition that he would not be governor for 11 days next January.

The former Medina mayor, who lost the gubernatorial nomination in the May primary, said before the Nov. 6 election that he "had a feeling."

Brown expressed belief that if Democratic Gov. Frank J. Lausche won a U.S. Senate seat he probably would remain governor until inauguration day, Jan. 14, rather than resign to be sworn when the Senate meets Jan. 3.

Lausche said after unseating GOP Sen. George H. Bender that he would remain as governor until Republican Atty. Gen. C. William O'Neill, who won the gubernatorial race, was sworn in as his successor Jan. 14.

Associates of the governor said he appears determined to serve

out his fifth full term despite speculation over his role in the expected organization of the U.S. Senate again by Democrats.

Resignation by Lausche to become senator automatically would elevate Brown to the governorship until O'Neill's inauguration.

In that post Brown would have full power to hire and fire cabinet members and about 100 officials in policy-making posts. He also could fill vacancies on boards and commissions, make judicial appointments, issue proclamations and perform other duties.

The 42-year-old former state highway patrolman didn't say that he would do any of those things if he attained his goal of becoming governor, even for only 11 days.

But Lausche associates asserted the governor was apprehensive and preferred to lose some seniority in the Senate by waiting until after Jan. 14 to be sworn.

The delay means that Lausche, who is 61 today, may not be called on to help organize the Senate. He created a stir by hinting that he might vote with Republicans if that would place control of Congress in the party of President Eisenhower.

But election returns showed that Democrats again could control Senate organization by a paper-thin margin without taking a chance on Lausche. The Democratic House margin is not in doubt.

Brown gave no reason for his premonition. Nor did Lausche's friends say why the governor decided to stay on. But they indicated Lausche apparently was

Boy Dies Of Wound Suffered Hunting

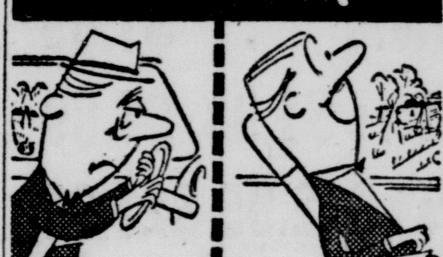

CAPE GIRARDEAU, Mo. (AP)—Kenneth Pecord, 15, of Miller City, Ill., died in a hospital here Monday of a shotgun wound in the head suffered Sunday while he was hunting geese with three companions at Horseshoe Lake north of Cairo, Ill.

A coroner's inquest was scheduled for tonight. Dr. L. F. Sigmond, Cape Girardeau county coroner, said he understood the youth was some distance in front of the other hunters in the party and got in their line of fire as a flight of geese passed by.

Members of his hunting party included his father, Jerry Pecord of Miller City, Dr. L. R. Sebaugh of Cape Girardeau, and Ira Michelson of Cairo. It had not been determined who fired the fatal shot.

MEXICO on the MARCH

WHEN THE CALL comes for a big parade in Mexico City, the marchers do things in a huge way as these photos help to show. In the long, sweeping lines of march can be found such diverse groups as military cadets, banner-carrying laborers, motorcycle police, musical outfits, beauty queens and the ever-present floats. These are the ingredients of most any parade, but everyone seems to take the day off when the parade is on its way. More than 600,000 persons marched in this parade and tens of thousands jammed the route to watch.

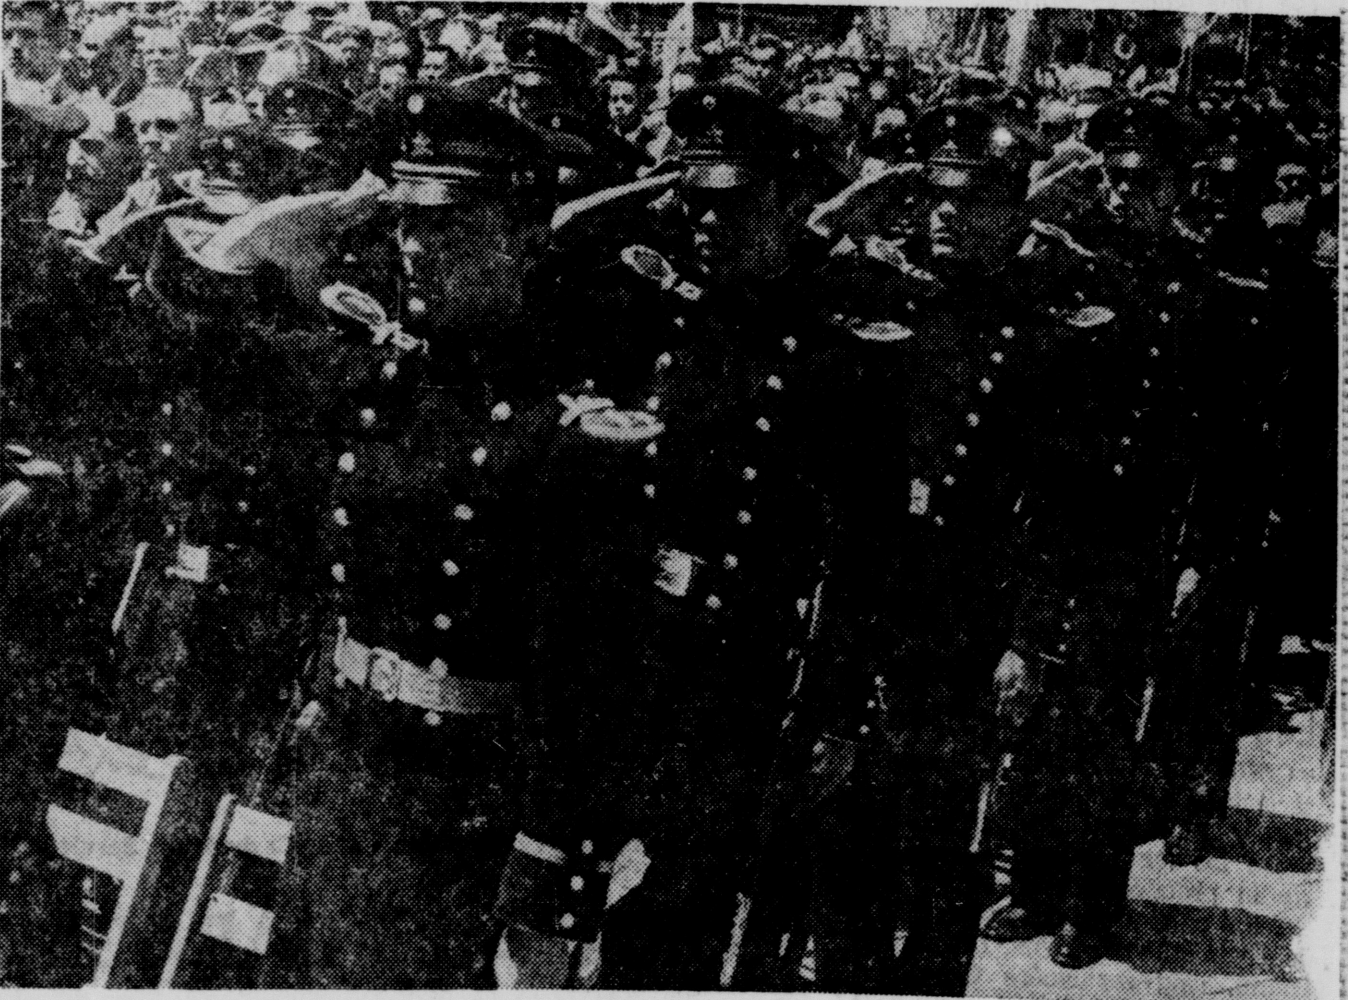

Motorcycle escort leads the way for this segment of the marchers and musicians.

Militant workers carry placard warning against violations of their right to strike.

Float represents union of the government-owned oil industry. Note workers here.

Texas A&M, Miami Banned From Playing In Bowl Games

NCAA Won't Lift Probations

Ohio State Among 4 Schools Penalized

By TOM SHAWVER
DETROIT (AP)—No postseason bowl games for Texas A&M and University of Miami football powers.

Probation periods ranging from nine months to four years for North Carolina State, Ohio State, Southern California and the University of California.

Such was the stern edict issued by the council of the National Collegiate Athletic Assn. Tuesday as it concluded a lengthy investigation into reported athletic irregularities at member schools.

The council, powerful policy directing body of the NCAA, turned down requests by Texas A&M and Miami to suspend probations that prevent them from accepting bids to bowl games New Year's Day. Both probations carry into 1957, Miami's by only 10 days.

Southern California's probation runs until July 1, 1958; California's to next Nov. 13 and Ohio State's to next Aug. 21. Only California may take part in NCAA events during the probation, but the participation ban against USC runs only until next Nov. 13.

The Texas Aggies have all but clinched the Southwest Conference title and were expected to perform as host team in the Cotton Bowl.

Eighth-ranked Miami, an independent, was considered a top prospect for the Sugar Bowl or Gator Bowl.

Walter Byers, NCAA executive secretary, said it was "general policy" of the council to let probations run their full course.

The four schools placed on probation join 11 other collegiate "bad boys" currently serving out NCAA penalties. All were accused of offering or extending illegal aid to athletes.

Student athletes at Ohio State, the council said, had received unauthorized financial aid. It endorsed an action taken earlier by the Big Ten conference in barring the front-running Buckeyes from playing the Rose Bowl next Jan. 1.

The penalty-weakened Pacific Coast Conference now has four of its major athletic powers under NCAA probation. Washington and UCLA were placed on probation earlier and, like Southern Cal, banned from Rose Bowl games or from claiming a conference championship during the probation.

All four schools had previously been heavily penalized by the PCC following a thorough investigation into athletic affairs at conference schools.

North Carolina State, which only last year ended a one-year probation that kept it out of the 1955 NCAA Basketball Championships, drew the longest penalty ever handed out by the council—four years.

Southern California's probation runs until July 1, 1958; California's to next Nov. 13 and Ohio State's to next Aug. 21. Only California may take part in NCAA events during the probation, but the participation ban against USC runs only until next Nov. 13.

Lane Fights Ryff In Miami Tonight

MIAMI, Fla. (AP)—Kenny Lane and Frank Ryff, ranked lightweight who are trying for higher standings in the ratings, fight tonight.

Lane, a left-hander from Muskegon, Mich., is rated a 2-1 favorite. He has beaten the only two men who defeated Ryff and is currently rated in fifth place among 135-pounders. A victory might do much to win him a title fight with the champion, Joe Brown.

Ryff, a New York fighter, is ranked ninth by the National Boxing Assn. and is trying to climb back to the higher ratings he once held.

Lane, winner of 43 of his 48 fights, defeated Ludwig Lightburn here Sept. 19. He whipped Larry Boardman, now ranked No. 1, in a match last summer at Miami Beach.

Boardman and Ralph Dupas are the two fighters who whipped Ryff and each has been defeated by Lane.

Ryff was rated No. 3 before Boardman knocked him out June 1 in a New York fight. ABC will telecast at 9 p. m., CST.

Sebring Gridders Breaks Leg In College Practice

CINCINNATI (AP)—Dick Seemin, second string center on the University of Cincinnati football squad, broke his leg just above the ankle in practice Tuesday.

Chicago Cubs, Redlegs Trade Five Players

By JOE MOOSHIL
CHICAGO (AP)—The new regime of the Chicago Cubs made its first rebuilding move Tuesday in getting third baseman Ray Jablonski. But as far as the club is concerned it's only "a start in the right direction."

Under newly named general manager John Holland and Manager Bob Scheffing, the last-place Cubs acquired the slugger Jablonski and pitcher Elmer Singleton from Cincinnati for pitcher Warren Hacker, infielder Don Hoak and outfielder Pete Whisenant.

Jablonski, a Chicagoan, is the key man for the Cubs although Scheffing already has said Singleton, a 36-year-old righthander who has failed in the majors previously will be worked in as a starting pitcher.

As for Cincinnati, the Redlegs apparently are banking on Hacker, 32-year-old righthander who had a 3-13 mark but won 15 games for the Cubs in 1952. Two other Cub castoffs — John Klippstein and Hal Jeffcoat — made good with the Redleg pitching staff.

Jablonski, 30, was the National League All Star third baseman in 1954 but batted .254 with Cincinnati last year slugging 15 home runs and knocking in 65 runs.

Singleton, who previously failed with the Boston Braves, Pittsburgh Pirates and Washington, had an 18-8 mark with Seattle in the Pacific Coast League and led the circuit with an earned run average of 2.55.

Hoak is 28 and was obtained in a deal with Brooklyn last year which sent third baseman Randy Jackson to the Dodgers. He was pegged as a "holler guy" by former Director of Player Personnel Wid Matthews but finished with a .215 batting average.

Whisenant, 26, was acquired in a trade last year for Hank Sauer. He played part-time for the Cubs and finished with a .236 average. Scheffing said he thought the deal "definitely will help us x x x it won't make us a pennant contender but it's a start in the right direction."

At Nashua, N. H., Cincinnati Manager Birdie Tebbets said he is hopeful Hacker and Hoak will come "into their own" with the Redlegs.

Floyd Patterson Begins Training For Title Bout

CHICAGO (AP)—Young Floyd Patterson, who will meet Archie Moore for Rocky Marciano's vacated heavyweight title Nov. 30 at Chicago Stadium, got into the routine at his Sportsman's Park training camp Tuesday.

Patterson made a tour of the racing strip aboard a palomino horse and then boxed four rounds against Clarence Boyd and Obidiah (Dusty) Rhodes.

Patterson's manager, Gus D'Amato, also got into the act claiming if Moore had fought Hurricane Jackson the night Patterson pounded out a 12-round decision "Moore would have been beaten."

Len Mal Captures Bowling Tournament

NEW YORK (AP)—Len Mal of Buffalo captured the first annual Bowling Invitation Tournament at Madison Square Garden Tuesday night, defeating Don Carter of St. Louis for the \$1,100 prize money.

Mal had games of 224-191-223-638 to Carter's 174-167-160-501.

In preliminary matches, Mal defeated Dick Hoover of Akron, Ohio, 393 to 359 and Carter whipped Jim Bernotas of Bayonne, N. J., 452 to 399.

In another preliminary, Graz Castellano of Jackson Heights, N. Y., upset Bill Lillard of Chicago, the tournament favorite, 391 to 387.

Ohio Hunting Season To Open

Wildlife Division Warns 'Be Careful'

COLUMBUS, Ohio —As Ohio's hunters prepared to open the rabbit and pheasant seasons Thursday, the state division of wildlife issued a "be careful" warning.

The division stressed the fact that 19 persons were killed last fall due to misuse of firearms in the fields, and that between Sept. 15 and Nov. 1 this year, eight more died in hunting mishaps.

Approximately 645,000 license holders killed three million rabbits and between 500,000 and 75,000 pheasants last fall. This year's figures are expected to be about the same. Hunters are limited to two male pheasants and four rabbits daily.

The division warned hunters to be careful in handling rabbits because of the threat of tularemia. "Wear rubber gloves in handling rabbits," was the admonition, although the division said rabbits infected with tularemia were still good for food.

Most soybean and corn crops have been harvested, leaving less cover for game and also cutting the number of farms closed to hunters due to unharvested crops. Most pheasants are found in western Ohio, where the division said practically all crops are in.

Of last fall's 100 shooting accidents, the division said half were caused by marksmen under 20 years of age, and 37 per cent by those with less than a year of hunting experience.

Hunting opens at 9 a. m. and ends at 5 p. m. during the season. W. E. Stuckey, safety specialist for the Ohio State University Extension Service, cautioned hunters that "for a happy hunting season, don't be trigger happy."

He also urged: "Treat every gun with the respect due a loaded gun. Be sure of your target before pulling the trigger. Never point a gun at anything you don't want to shoot. Never climb a tree or fence with a loaded gun. Don't mix gunpowder and alcohol."

U. S. Athletes Recover From Numerous Ills

By BOB MYERS
MELBOURNE (AP)—American track and field athletes have recovered from numerous ills and injuries and are approaching their record breaking form at the Olympic trials of last June.

This was the reassuring word of coach James Kelly today as his squad put on one of its best workouts in preparation for the games of the sixteenth Olympiad starting Nov. 22.

Kelly was especially pleased with the good form shown by sprinter Bobby Morrow and half-miler Arnie Sowell, two of Uncle Sam's erstwhile "cripples."

Morrow, who has been thought to have a good chance of scoring a double in the sprints, had been ill with a virus infection but now appears fully recovered and Kelly expressed confidence that Bobby was near his peak after watching the Texas sprinter work out. The belief is that Morrow has a good chance to win both the 100 and 200-meter dashes, particularly the 100.

The tall youngster from Abilene Christian College said he was getting stronger every day.

It has not been generally known that Sowell was laid up for a time last summer. The University of Pittsburgh track star, who is counted on, with Tom Courtney, to lead the procession in the 800-meter run, was on crutches in August. He sprained his ankle playing three-man basketball.

The Pitt star said he was feeling "real good" now and Kelly noted he seemed to have his old bounce back.

Kelly disclosed that twice in the past few days discuss thrower Fortune Gordien, world record holder, has exceeded 190 feet and Al Oerter of the University of Kansas hit 189 feet.

Shotputter Ken Bantum of Manhattan College, who was unable to compete in stateswide practice affairs because of school demands, and Bill Nieder of Kansas both

have done 59 feet in recent workouts.

In a workout Tuesday, Cy Young of Modesto, Calif., who set the Olympic javelin throw record in 1952, bettered it by nearly 14 feet with a warm-up throw of 256 feet.

Oklahoma Favored To Whip Missouri; Irish Picked To Win

By HAROLD CLAASSEN
SAN FRANCISCO (AP)—Taking a glance at the nation's college football teams from the opposite coast—but there is no assurance that the view is any more revealing. Last week's Atlantic Coast inspection resulted in 34 correct selections and 13 wrong ones. That's an average of .724. The season's record is 278 right, 84 wrong and .768.

Johnny Majors Named AP's Back Of Week

By The Associated Press

Johnny Majors, a tremendous Tennessee tailback in the tradition of George Cafego and Hank Lauricella, today was named Associated Press Back of the Week.

The 5-foot-10, 162-pound senior had few opportunities to display his offensive ability in a tight defensive battle with Georgia Tech last Saturday, but he came up with a clutch showing in a few short moments in the third period and that was all the Vols' needed for a 6-0 victory.

Tennessee, the nation's No. 1 team in the Associated Press poll, moved for its score in four plays covering 65 yards. On the second play of the series Majors hit end Buddy Cruze with a 16-yard pass, and before Tech recovered he came back on the next play to connect with Cruze again on a play that covered 45 yards, ending on the Tech one. Fullback Tommy Bronson took it over.

Jim Pace, Michigan halfback who gained 120 yards in 15 rushes in the Wolverines' victory over Illinois, also made a strong showing in sports writers' balloting.

Another great performance by All-America Tommy McDonald of Oklahoma came in for strong consideration. The Sooner speedster scored twice as his mates rolled over Iowa State.

Kirk Wilson of UCLA punted and passed beautifully against Washington to win the bulk of the West Coast support.

Rooney Ends Idea Of Moving Steelers

PITTSBURGH (AP)—Speculation that the Pittsburgh Steelers might take their National Football League franchise to another city just about ended today.

Art Rooney, president of the Steelers, indicated strongly Tuesday night the club will stay and continue to play its game at Forbes Field — home of the National Baseball League's Pittsburgh Pirates.

Rooney was optimistic after a conference with Tom Johnson, vice president of the Pirates. Johnson will take up the Steelers problem with the Pirate board of directors after his return and said there should be no difficulty working out a new rental agreement with Rooney.

The Steelers' 10-year rental lease expired at the end of last season and the club has been playing on a game to game basis. Rooney wants his rent reduced, claiming other NFL clubs using major league baseball parks don't pay as much as he does. He pays 15 per cent of the net gate as rent.

Recently the Steelers have received directly, or through the NFL commissioner's office, bids to move their franchise to Louisville, Denver, Minneapolis and Buffalo.

Tony Leswick played 421 straight National Hockey League games through last season when he left the circuit. He last played for Chicago's Black Hawks.

Young, California over Washington State, Oregon State over Idaho, New Mexico over Montana, College of Pacific over Hardin-Simmons, UCLA over Kansas, Colorado over Utah.

Now you know! With the crops from your garden being gathered -
and all so-o-o good! - Now you KNOW that your freezer is too
small! It looked so big last spring when it first came to your home,
and now its seams are bursting.

What's the answer? Call ED 2-4601 and tell the helpful girl who
answers that you want to sell your freezer. She'll write an ad which
will sell that little freezer to some family it will fit.

You'll get the cash to help pay for a new
freezer that will let your garden grow!

Nazarene Church To Hold Special Observance Sunday

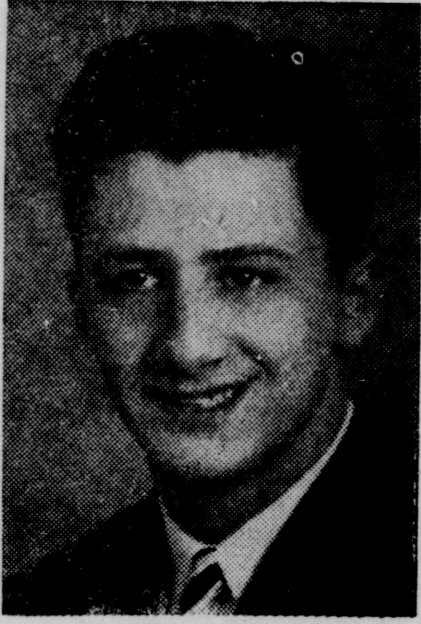

Rev. William Parks of Bedford will speak at an "old home week" observance Sunday in the Church of the Nazarene.

The son of Rev. and Mrs. E. M. Parks, he was graduated from Salem High School in 1947. He received his degree from the Eastern Nazarene College at Wollaston, Mass.

He is married to the former Leatrice Cummings of Boston, Mass., who will take part in the musical portion of the program.

Performing will be the Shoff quartet comprised of Edward Shoff of Salem and three former Salem residents, Ernest Shoff of Canton, Mrs. Paul Heath and Mrs. Arthur Haas of Warren.

Also appearing will be a teenage girls quartet consisting of Vera Thorne, Nancy Tullis, Janet Barton and Iva Shoff. Carol Anderson will accompany them at the piano.

Rev. William Parks

A brief history of the church will be presented during the Sunday School hour when early members of the church will be recognized. Teachers active in the early days of the church also will be recognized.

Nurses To Register With State By Jan. 1

The city board of health announced today that any Ohio registered nurse who wishes to practice legally in Ohio as a registered nurse in 1957 is required by law to renew her certificate of registration by filing a renewal application and sending a fee of \$2 by Jan. 1, 1957 to the Board of Nursing Education and Nurse Registration, 240 S. Parsons Ave., Columbus 15, Ohio.

A nurse who does not plan to practice in Ohio as a RN during 1957 is not required to renew her certificate but may request to have her name placed on record as being inactive. This in no way voids her certificate of registration.

Airline To Serve Portsmouth, Ohio

WASHINGTON (AP)—Lake Central Airlines Tuesday was authorized to start serving Portsmouth, Ohio, Jan. 8 on its Cincinnati-Columbus route.

The certificate was granted by the Civil Aeronautics Board (CAB) whose decision said that Portsmouth and the atomic energy plant in neighboring Pike County deserve air transportation.

Portsmouth has a new airport but no commercial airline is allowed to land there.

In its decision, the board noted that the bureau of air operations had objected to air service for Portsmouth on grounds it would mean an annual subsidy of \$108,000 to Lake Central.

The board also said that Lake Central estimated the subsidy at \$24,000 and CAB Examiner John Cannon fixed the figure at \$50,000.

Whoever is right, said the board, "we would still feel that the public benefits from the new service

are sufficient to justify the resultant cost to the government."

The Lake Central certificate is temporary. It will be effective only until another case, the Great Lakes local service case, is settled—or for three years—which ever period is longer.

Four Draw Fines In Mayor's Court Here

Four persons were fined a total of \$215 and costs Tuesday for traffic violations, Mayor Dean B. Cranmer reported.

Fined were: Steve Kozak, 43, of Whitney, Pa., \$25 for truck overload; Richard Cope, 18, of Leontonia, \$15, driving left of center; Larry Stoffer, 18, of 767 W. State St., \$25, reckless operation, and Albert L. Stipic, 31, of MC 1, Salem, \$150 and 3 days in jail, driving while intoxicated.
